Dear Clerk of the Board: per our conversation today please forward these comments to the Board and County Council besides the other departs in El Dorado County that may have a interest in our comments.

Thank you for you courtesy in your response to me today, please send me a CC when you send out this Notice and comments to all.

Thank You  
Steven Proe

For the El Dorado County Taxpayers For Quality Growth

Hi Mel: When last we spoke you stated that you would check on the settlement agreement between El Dorado Taxpayers For Quality Growth and the El Dorado County Board of Supervisors on the proposed Carson Creel issue, preapplication. You stated that you would send me any information so that we could comment to the Board prior to the hearing,

I have not received anything in-addition to the Board notice...

We have been denied the opportunity to comment on the information that I had supplied to you and that you had stated you would check up on and get back to us as you were not aware of this settlement agreement between EL Dorado County and the El Dorado County Taxpayers for Quality Growth?

I have read thru the document that you sent out last week and am not sure this issue if it was evaluated sufficiently in that document or not?

I have attached correspondence below for your information and request a written response to where it has been included in any way in your report to Anyone Including your report/exhibits or any other correspondence's with the El Dorado County Board of Supervisors. (see below)

Hi Chrysa:

I am so sorry about the delay in getting back to you on the proposal outlined in your letter dated December 4, 2018.

The proposal was to rezone roughly 90 acres of research and development and industrial land to age-restricted, "senior" single family residential.

I appreciate your patience while I gathered opinions from our group.

I circulated the letter and the accompanying traffic analysis report to the El Dorado County Taxpayers for Quality Growth and other community members for their input.

I received a number of comments back.

The consensus is to retain the current conditions presented in the Carson Creek Settlement Agreement.

While we might appreciate some aspects of the proposal, the collective thought was not to alter the planning and balance of what was developed for the settlement.

Again, thank you for seeking our input and patiently waiting for my reply.

Please feel free to contact me if you have any further questions.

Best Regards,

Bill
