Provide a brief description of the acquisition, including all goods and/or services the vendor/supplier will provide:

Complete law enforcement build-up of 2 new Chevy Tahoes, including installation of emergency lights, console, siren, computer mounting equipment, CradlePoint antenna system, and a custom made lockable storage box. Additionally, Blue Print technology will be installed in the vehicles emergency lighting system and Emergency Vehicle Outfitters (EVO) are the only vendor in the area with technicians certified to install Blue Print, which is a requirement of the manufacturer Sound Off Signal. The custom lock box is custom made from EVO.

Department Head: _____	Date: <u>1.29.19</u>

Board of Supervisors:	Buyer Assignment:
Date: _____	Assigned To: _____
Item: _____	Date: _____

A. The good/service requested is restricted to one supplier for the reason stated below:

1. Why is the acquisition restricted to this goods/services supplier? (Explain why the acquisition cannot be competitively bid. Explain if this is an emergency purchase or how the supplier is the only source for the acquisition.)

1. EVO is the only vendor in the area certified to install Blue Print technology, as well as manufacture a custom lock box for the rear storage area of the vehicle. These products need to be installed during the build-up of the vehicle.

2. Provide the background of events leading to this acquisition.

With the design of a new law enforcement build-up package due to going to Chevy Tahoe's, the Probation Department will be installing upgraded equipment and software such as Blue Print Technology, which is in part a safety option that will allow the vehicle to remain running without the keys in the ignition, among other programming options for the emergency lights. Additionally, by using EVO the Department can design a custom lockable storage box in rear of the vehicle that meets the needs of our officers.

3. Describe the uniqueness of the acquisition. (Why was the goods/services supplier chosen?)

EVO is the only vendor in the area certified to install Blue Print technology, as well as manufacture a custom lock box for the rear storage area of the vehicle.

4. What are the consequences of not purchasing the goods/services or contracting with the proposed supplier?

If this vendor is not chosen, we will not be able to install the Blue Print Technology into the vehicle as there are no other certified technicians in the area, which is a requirement of the manufacturer, Sound Off Signal.

5. What market research was conducted to substantiate no competition, including evaluation of other items consider? (Provide a narrative of your efforts to identify other similar or appropriate goods/services, including a summary of how the department concluded that such alternatives are either inappropriate or unavailable. The name and addresses of suppliers contacted and the reasons for not considering them must be included OR an explanation of why the survey or effort to identify other goods/services was not performed.)

A previously mentioned this vendor is the only vendor local to our agency that has the certification and ability to install the requested technology

B. Price Analysis:

1. How was the price offered determined to be fair and reasonable? (Explain what basis was used for comparison and include cost analysis as applicable.)

Only vendor and quote(s) attached.

2. Describe any cost savings or avoidance realized (1 time or on-going) by acquiring the goods/services from this supplier.
