Report Suspicious

Hello Supervisors and Clerk of Board,

Below is my public comment for your consideration on legistar item 26-0534

DOT Maintenance Projects

Most of these projects reference multiple phases, but then some of the descriptions have a specific phase. Is the cost estimate total across all phases, or will the costs be provided per phase in future requests? I suggest to include total cost estimate of all phases for review, not just piecemeal as the phases occur so Supervisors know what they are committing overall.

Will all phases be completed in the time frames referenced (approx. 1 year per project)? If not, then it would be helpful to highlight it will be multi-year phases with future funding requests.

Why are there significant cost differences per project? I put together a table grouping requests based on if they were only for a defined phase or not, just in case the materials were different. Even within a phase different projects had different estimated costs per mile.

	Distance	Cost Est.	\$ Per Mile
EDH Blvd	2.1	\$1,950,000	\$928,571
Cambridge	3.36	\$1,400,000	\$416,667
Phase 2			
North Canyon	1.6	\$1,600,000	\$1,000,000
Sly Park	9.92	\$2,800,000	\$282,258
GV Road	4.12	\$1,300,000	\$315,534
Phase 3			
GV Road	3	\$1,400,000	\$466,667

Regarding EDH Blvd, there is a request in the Planning Commission meeting this week regarding a CIP project being recommended for removal. However, that project had a number

of other items in it. Is there any concern about doing this work if removal of that is not approved as consistent?

Regards,
Linda Campbell
