El Dorado County Board of Supervisors
c/o Clerk of the Board of Supervisors
330 Fair Lane
Placerville, CA 95667

Dear Honorable Board Members,

Carter-Kelly, Inc. supports Ygrene Energy Fund in their effort to create an El Dorado countywide district allowing property owners to finance clean energy building retrofits. Retrofitting homes and businesses to help property owners save money on their utility bills will undoubtedly be an economic development tool for the County.

Our company is a Ygrene Certified Contractor and will utilize the financing mechanism for many of our private clients projects in the City and County of Sacramento. However, we have many projects that could use this financing system in El Dorado County. This initiative, if adopted will generate projects for many El Dorado County subcontractors, in turn creating jobs and employment opportunities for our residents.

We urge you to move forward with Ygrene Energy Fund to establish a countywide district to finance clean energy retrofits.

Sincere Regards,

James E. Carter
President
Carter-Kelly, Inc.
