

Dear Board,

RECEIVED
BOARD OF SUPERVISORS
EL DORADO COUNTY
2007 DEC 4 PM 3:57

As homeowners directly affected
the future Mather expansion we would like
to express our concern not only regarding
current and future flight noise but also
the impact this expansion could have
on our property values.

Please advise as to the Board's
plans to join the lawsuit recently
filed by Folsom, ~~it~~^{it} would seem that
El Dorado County stands to benefit from
this lawsuit as much as Folsom. We
also would like to know if the Board
intends to approach Sac. County regarding
a change in flight path from the current
path through areas of high density
housing to a flight path possibly south
of Hwy 50?

Sadly, is the Board aware of a noise impact study to be conducted by Sacramento County / DERA?

As it stands currently, we are awakened by the cargo planes flying over our homes between the hours of 4-6 am. Please do not allow Mather to further disrupt our quality of life. ALSO, WE CAN HEAR THE LANDING GEAR LOWERING DOWN WHICH CREATES EXTREME NOISE CONDITIONS.

We the undersigned strongly oppose the expansion.
