RE: Rate request TTSD

Dear Gerri:

Please accept this letter as our request to put forth a 1.64% rate increase to garbage collection rates effective July 1st, 2014 in the area of El Dorado County, which our company services. This compares to a 5% increase allowed-for under the contract terms.

We have arrived at this reduced figure of 1.64% based upon a review of the available garbage-related indices and our internal costs, while at the same time remaining sensitive to the rates paid by the individual residents of the area. For this latter reason in particular, we are requesting a smaller rate increase than allowed for under the contract, as we have in past years.

Attached is a schedule of the overall rate structure, reflective of a 1.64% increase. An updated company-prepared break-out financial profit & loss statement for the area using the most recent results available through the 2013 calendar year is being prepared, and will be submitted to your office in at least Draft format (but most likely as Final) before April 30th, as required under the contract terms.

Note that the 5-year term of the current contract expires at the end of calendar year 2014, with options designated to renew the term twice, each in increments of 2-year extensions. While we are currently working together in contract extension negotiations planned to result in a longer-term contract extension before the expiration of the current 5-year term, per our conversations with Staff we would request that the Board of Supervisors grant provisional authority to extend the current contract by the first of the 2-year extension terms, should it prove to be necessary until the longer-term contract being negotiated can be finalized. (We will send a formal written request to this effect after the 8-month mark and before the 5-month mark, per the exact terms of the current contract).

Thank you, Gerri, to you and your Staff, for the continued opportunity to provide service to the residents and businesses of El Dorado County, and should you have any questions, please call any one of us here at TTSD directly.

Regards,

David Achiro

Notes: Extra trash left curbside in bags or cans are picked-up without authorization, for amounts up to 7 extra can charges.
 For larger amounts of extra trash left out in bags or cans in excess of one yard and resulting in more than 7 extra can charges, the trash is not picked-up without customer pre-authorization of the charges.
 For extra trash left curbside in bags, 1-2 small bags (or any portion thereof) = 1 extra can charge, and 1 large bag = 1 extra can charge.
 For reference, one "small bag" equates to a 32-gallon bag that has been tied, and has thus had its capacity reduced to less than what would fit in a 32-gallon can.
 For reference, one "large bag" equates to a 45-55 gallon bag that has been tied, and has thus had its capacity reduced to approximately what would fit in a 32-gallon can.
 For all bulky and special handling items left curbside, customer pre-authorization is required in all cases, to both make sure the customer is aware of the charges, and to also confirm that the item is indeed intended for trash.
 Customer call-in for scheduling and authorization is recommended for all bulky and special handling items.
 Reasonable efforts will be made to seek authorization and accommodate pick-up of items left out on route without prior call-in to schedule, however larger bulky items exceeding 7 extra can charges and special handling items requiring separate collection handling (e-waste and universal waste items) left out without notification, may not be accommodated on the same day without prior customer call-in for scheduling.
