ARTICLE 4 – SPECIFIC USE REGULATIONS

Section 5: ARTICLE 4 entitled “Specific Use Regulations” Table of Contents is amended as set forth below:

CHAPTER 130.40 – Specific Use Regulations

Sections:

130.40.140 ~~Reserved~~ Drive-Through Facilities

Section 6: Section 130.40.140 entitled “Reserved” is amended to add new section entitled “Drive-Through Facilities” as set forth below:

130.40.140 ~~Reserved~~ Drive-Through Facilities

A. **Applicability.** This Section is intended to regulate drive-through facilities with development standards regarding their design and operation. This Section does not apply to drive-in movie theaters, carwash facilities, or motor vehicle service stations.

B. **Allowed Use.** Drive-through facilities for nonfood and/or nonbeverage uses are allowed if in compliance with the development standards set forth in this Section in designated zones on Table 130.22.020 (Allowed Uses and Permit Requirements for the Commercial Zones) and Table 130.23.020 (Industrial / R&D Zones Use Matrix) in Article 2 (Zones, Allowed Uses, and Zoning Standards) of this Title.

C. **Permit Requirements.** Drive-through facilities for food and/or beverage uses require a Conditional Use Permit (CUP) in designated zones on Table 130.22.020 (Allowed Uses and Permit Requirements for the Commercial Zones) and Table 130.23.020 (Industrial/R&D Zones Use Matrix) in Article 2 (Zones, Allowed Uses, and Zoning Standards) of this Title. Drive-through facilities for nonfood and/or nonbeverage uses that are not in compliance with the development standards set forth in this Section require a CUP.

D. **Development Standards.** The development standards in this Section are intended to supplement the standards in the underlying zone for drive-through facilities. In the event of conflict between these standards and the underlying zone standards, the provisions of this Section shall apply. A typical example (not site specific) is shown in Figure 130.40.140.A entitled “Drive-Through Food and/or Beverage Facility (Typical Example)” below in this Section.

1. **Drive-Through Lanes.**

a. Drive through lanes shall be a minimum 12 feet in width.

b. A vehicle turning analysis shall be required, demonstrating that an American Association of State Highway Transportation Officials (AASHTO) Passenger (P) Vehicle can negotiate any curves or turns in the drive-through lane. A minimum 15 foot inside radius is required. Alternative design widths and radii may be approved by the County Engineer or Building Official, utilizing the DL-23 vehicle, as specified by the National Association of City Transportation Officials.

c. A drive-through lane shall be a minimum of 50 feet from the nearest property line of any residentially zoned lot or residential use. See Figure 130.40.140.A (Example: Drive-Through Food and/or Beverage Facility) below in this Section.

- d. Each drive-through entrance and exit shall be at least 50 feet from the nearest property line of a residential land use.
- e. Each entrance to a lane and the direction of traffic flow shall be clearly designated by signs and pavement markings.
- f. Each drive-through lane or group of multiple lanes shall be physically separated from the circulation routes or parking spaces by means of curbs, rain gardens, or landscaping.
- g. Drive-through entrances and exits shall be designed such that the headlights of vehicles at the point of entrance and exit of the drive-through facility shall not directly face a residential zone or residential use, unless screened by a building, fence, wall, grade, or landscaping.

2. Stacking Area.

- a. Stacking area within the drive-through lane or lanes shall be provided to accommodate the estimated queued vehicles utilizing the drive through facility. A queuing analysis performed by a Traffic Engineer is required for all drive-through facilities, to determine stacking length needed in the drive-through lane. The queuing analysis shall consider queuing in advance of the ordering point, and in advance of the pick-up/service window.
- b. For single drive-through lanes, a minimum stacking distance of 100 feet is required for all food and/or beverage drive-through facilities, measured from the entrance of the drive-through lane to the ordering point.
- c. A minimum stacking distance of 80 feet per lane is required for all nonfood and/or nonbeverage drive-through facilities, measured from the entrance of a drive-through lane to the service window.
- d. Where multiple drive-through lanes are proposed, a lesser minimum distance may be approved by the County Engineer.
- e. Stacking of queued vehicles for drive-through facilities may not stack into parking lot drive aisles, public right of way, or a public roadway.

3. Landscaping and Screening of the Drive-Through Lane. Landscaping shall be provided as described below:

- a. If the drive-through lane is adjacent to a parking area, a 5-foot wide planter shall be provided between the drive-through lane and the parking area that includes shade trees consistent with those used in the parking area;
- b. A minimum 4-foot high wall or planter/landscaping that screens the drive-through lanes is required so that vehicle headlights in the drive-through lanes are not visible from adjacent street rights-of-way or adjacent residential uses. See Figure 130.40.140.A - Drive-Through Food and/or Beverage Facility (Typical Example) below in this Section.

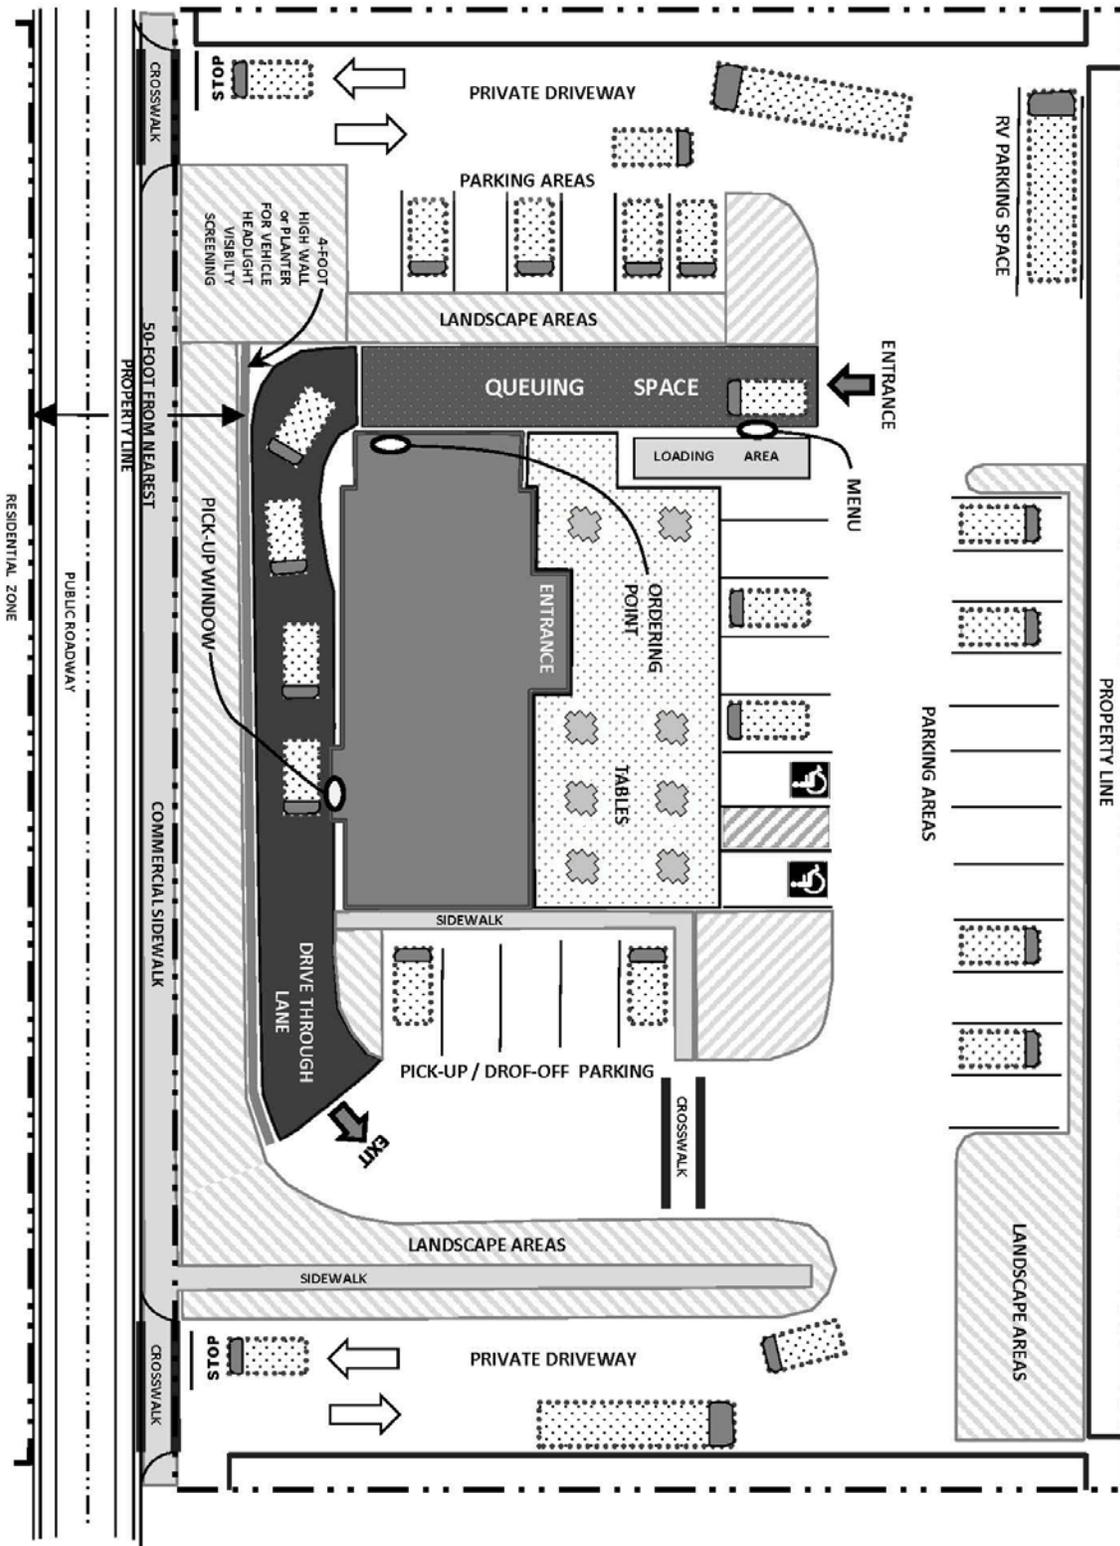

4. Pedestrian Access and Crossings. Pedestrian access shall be provided from each abutting street to the primary entrance with a continuous on-site 4-foot wide sidewalk or

delineated walkway. Pedestrian walkways preferably should not intersect the drive-through lanes, but where they do, the walkways shall have clear visibility and shall be delineated by textured and colored paving.

5. **Signs.** Signage shall be in compliance with Chapter 130.36 (Signs) in this Title. Also refer to subsection 130.36.070.K.4 (Menu/Order Board Signs for Drive-In and Drive-Through Uses) in Article 3 (Site Planning and Project Design Standards) of this Title.
6. **Hours of Operation.** When the drive-through facility is located within 100 feet of any existing residential zone or existing residential use (measured from the nearest residential property line to any part of the drive-through facility including parking lot, drive-through lane, or structure), hours of operation for the drive-through facility shall be limited to 7:00 a.m. - 10:00 p.m. daily. If the use is located greater than 100 feet from a residential zone or existing residential use, there shall be no restrictions on the hours of operation.
7. **Parking.** The required number of off-street vehicle parking spaces for drive-through facilities shall be based upon the primary use of the facility (e.g., bank, restaurant, retail, etc.). Refer to Section 130.35.030 (Off-street Parking and Loading Requirements) in Article 3 (Site Planning And Project Design Standards) of this Title. Spaces designated for mobile order pick-up, and waiting area parking shall count toward the minimum overall parking requirements.
8. **Noise.** Any drive-through speaker system shall not exceed thresholds set forth in Table 130.37.060.1 (Noise Level Performance Standards for Noise Sensitive Land Uses Affected by Non-Transportation Sources) in Article 3 (Site Planning and Project Design Standards) of this Title. The system shall be designed to compensate for ambient noise levels in the immediate area. At no time shall any speaker system be audible above daytime ambient noise levels beyond the property lines of the site.
9. **Maintenance.** The drive-through facility shall be properly maintained in accordance with conditions of approval. If subject to a Conditional Use Permit, see Table 130.22.020 – Allowed Uses and Permit Requirements and Table 130.23.020 – Industrial/R&D Zones Use Matrix in Article 2 (Zoning Ordinance Zones, Allowed Uses, and Zoning Standards) of this Title.

130.51.050 Public Notice Requirements and Procedures

See existing Title 130 (Zoning Ordinance) for the following sections which were amended on September 15, 2015 (Board adopted OR14-001):

Sec. 130.04.015— Notice requirements and procedure

Sec. 130.10.020— Commission hearing

Sec. 130.10.040— Board hearing

Sec. 130.22.200— Notice of hearings

A. This Section implements greater public notice requirements than the prescribed requirements in California Government Code (CA Gov. Code § 65090- 65095). The public notice requirements and procedures for the various types of planning actions are set forth below in Table 130.51.050.1 (Public Notice Requirements and Procedures – Administrative Projects) and Table 130.51.050.2 (Public Notice Requirements and Procedures – Discretionary Projects). Public notice regarding projects will be mailed to nearby property owners according to the distance radius from the project site parcel boundary as specified in these tables. If the project has multiple actions with conflicting distance radii, then the greater distance radius shall apply.

B. The notice shall be mailed at least 10 days prior to the hearing to any person who has filed a written request for notice either with the clerk of the governing body or with any other person designated by the governing body to receive these requests. The local agency may charge a fee, which is reasonably related to the costs of providing this service, and the local agency may require each request to be annually renewed. As used in this Chapter, “person” includes a California Native American tribe that is on the contact list maintained by the Native American Heritage Commission (CA Gov. Code § 65092).

C. The failure of any person or entity to receive notice pursuant to this Title shall not constitute grounds for any court to invalidate the actions by the Director, Zoning Administrator, Planning Commission, and/or Board of Supervisors for which the notice was given (CA Gov. Code § 65093).

D. Any public hearing conducted under this Title may be continued from time to time (CA Gov. Code § 65095). If a hearing on a project is continued to a date certain, no additional public notice is required. Projects continued off calendar require new public notice.

E. **Public Notice Requirements and Procedures - Administrative Projects.** Administrative projects are projects that require the issuance of an Administrative Permit as specified throughout the various matrices of allowed uses set forth in this Title. Administrative project types listed in Table 130.51.050.1 (Public Notice Requirements and Procedures – Administrative Projects) require public notice prior to a Director decision or no public notice as specified below.
