

23010. (a) Pursuant to a resolution adopted by its board of supervisors, a county may lend any of its available funds to any community services district, county waterworks district, mosquito abatement district, pest abatement district, fire protection district, flood control and water conservation district, recreation and park district, regional park district, regional park and open-space district, regional open-space district, resort improvement district, or public cemetery district located wholly within the county, if its funds are or when available will be in the custody of the county or any officer of the county, in order to enable the district to perform its functions and meet its obligations. The loan shall not exceed 85 percent of the district's anticipated revenue for the fiscal year in which it is made or for the next ensuing fiscal year, and shall be repaid out of that revenue prior to the payment of any other obligation of the district.

(b) Pursuant to a resolution adopted by its board of supervisors, a county may loan any of its available funds to a special district, in order to enable the district to perform its functions and meet its obligations. The loan shall not exceed 85 percent of the special district's anticipated property tax revenue projected to be generated for the fiscal year in which it is made or for the next ensuing fiscal year within that portion of the district's territory which is located within the county. The loan shall be repaid out of any available revenue of the special district prior to the payment of any other obligation of the district.

For purposes of this subdivision, "special district" means a special district, as defined in Section 54775, which is located in more than one county.

(c) The board of supervisors may borrow funds from the county or from other garbage disposal districts, not to exceed 85 percent of the district's anticipated revenue for the fiscal year in which they are borrowed or for the next ensuing fiscal year. In levying taxes or prescribing and collecting fees or charges as authorized by this division, the board of supervisors may raise sufficient revenues to repay the loans.

The board of supervisors may lend available district funds to another garbage disposal district, subject to the terms and conditions set forth in this section.

Nothing contained in this section shall prohibit the board of supervisors from borrowing funds from banks or other financial institutions when the best interests of the district are served thereby.

(d) Notwithstanding any other provisions of law, funds, when borrowed by a garbage disposal district pursuant to subdivision (c), shall forthwith increase the appropriations of the district for which they are needed. The governing body of the entity from which the funds are borrowed may specify the date and manner in which the funds shall be repaid. The loan shall not exceed 85 percent of the district's anticipated revenue for the fiscal year in which it is made or for the next ensuing fiscal year, and shall be repaid out of that revenue prior to the payment of any other obligation of the district.

(e) The district shall pay interest on all funds borrowed from the county at the same rate that the county applies to funds of the district on deposit with the county.

23010.1. Pursuant to a resolution adopted by its board of supervisors, a county may lend any of its available funds to any fire protection district located wholly within the county if the funds of the fire protection district are or, when available, will be in the custody of the county treasurer, for the acquisition of real or personal property and the construction of structures needed for district purposes.

The board of supervisors in the resolution shall specify the date and manner in which the funds shall be repaid. The resolution may require the repayment of the loan in equal annual installments. The loan shall be repaid within the time specified in the resolution which shall not in any event exceed 10 years.

23010.2. The board of supervisors may loan to any city within its limits which has been incorporated for less than one year an amount not exceeding eighty-five percent (85%) of the city's anticipated revenues for the fiscal year in which such loan is made. Such loans shall be repaid within the fiscal year in which made.

23010.3. Upon adoption of an authorizing resolution by the board of supervisors, in connection with the construction of any sanitary sewer, storm sewer, or drainage improvements, a county may expend any of its available funds for any additional cost of construction of any conveyance works in excess of the construction required for the current project, or for a portion of the cost of conveyance works directly benefiting properties in an area outside the area to be served by the current project, if the board of supervisors first finds and declares in that resolution, that there is an area outside the area to be served by the current project which may in the future utilize the conveyance works; that additional construction of conveyance works for the current project is necessary to serve the outside area in the future; and that the board of supervisors will have the right in the future to use, or to permit the use of, the conveyance works and the additional construction which will benefit the outside area. In lieu of a county contribution of funds for additional construction or for a portion of the cost of the conveyance works where an outside area is directly benefited, the board of supervisors may agree to reimburse, from future connection fees, any entity or person described in subdivisions (a) to (g), inclusive.

The provisions of this section shall be applicable in cases in which improvements are to be constructed by any of the following:

(a) A county pursuant to the "The Improvement Act of 1911," Division 7 (commencing with Section 5000) of the Streets and Highways Code.

(b) A county pursuant to the "Municipal Improvement Act of 1913," Division 12 (commencing with Section 10000) of the Streets and Highways Code.

(c) A county in any other manner.

(d) Any district which is governed by the board of supervisors of the county in which the work is to be performed.

(e) Any district, not governed by the board of supervisors of the county in which the work is to be performed, with which the board of supervisors has contracted so as to assure the right of the county to use the conveyance works and the additional construction, for the future benefit of the outside area.

(f) Any incorporated city with which the board of supervisors has contracted so as to assure the right of the county to use the conveyance works and the additional construction, for the future benefit of the outside area.

(g) Any person, if the works when completed are to be dedicated or conveyed to the county or to a district governed by the board of supervisors of the county in which the work is to be performed.

The board of supervisors may impose a connection fee upon any person or district in the outside area to be paid to the county as a condition to connecting to any conveyance works which have been augmented by additional construction, or which have been found by the board of supervisors to directly benefit the outside area, pursuant to this section. The connection fee shall be a prorated share of the total cost of the additional construction, or of the portion of the costs of the conveyance works where an outside area is directly benefited. The fee may include a reasonable amount for administrative costs associated with the collection of the fee and to provide reimbursement to an entity or person described in subdivisions (a) to (g), inclusive. In computing the total cost of the additional construction, or of the portion of the costs of the conveyance works where an outside area is directly benefited, the board of supervisors shall include an amount attributable to interest from the date of completion of the construction to the date of connection and, in the event the board of supervisors agrees to reimburse, from future connection fees, any entity or person described in subdivisions (a) to (g), inclusive, all accrued interest shall be payable to that entity or person.

This section shall not decrease or limit any other power vested in counties or boards of supervisors.

23010.4. Upon receipt of an application from the governing body of any school district maintaining a school within a county, requesting to borrow funds from the county for the purpose of removing or replacing asbestos-derived materials used in constructing, insulating, or furnishing one or more of those schools, and declaring the existence of such asbestos-derived material to be potentially detrimental to the health of pupils, teachers, and others using the school, the county board of supervisors may loan, and the school district may borrow, the requested county funds upon such terms and conditions as are mutually agreed upon by the respective governing bodies, provided that the loan shall be repaid only from the school district's deferred maintenance fund established pursuant to Section 39618 of the Education Code.
