Honorable Board Members:

**Recommendation:**

Environmental Management Department recommending Chairman be authorized to approve the bid documents for the Vegetative Cover for the closure of 13.6 acres at the Union Mine Disposal Site Project # 027-PA-06/07-BOS subject to County Counsel and Risk Management final approval and authorize said Department to advertise bids.

**Reasons for Recommendations:**

The closure for the 15.8-acre Class III Old Landfill at the Union Mine Disposal Site specified by the California Valley Regional Water Quality Control Board, Central Valley Region (CVRWQCB) in new Waste Discharge Requirements Order No. R5-2006-0020 must be completed by August 15, 2007. As part of the Final Closure Plan, which was submitted to the CVRWQCB on March 30, 2006, it was identified that 13.6 acres of the 15.8-acre Class III Old Landfill Area will receive final cover in the year 2007. The remaining 2.2 acres are schedule to be closed in the year 2040, the projected closure date of the Class II active disposal area. The final closure for the Class III Old Landfill includes a soil vegetative cover of 22,000 cubic yards which must be imported to the Union Mine Disposal Site prior to commencing with the Final Closure Project.

After approval of bid documents by the Board, Environmental Management will advertise the project for forty-five (45) days and anticipates the bid opening to occur March 30, 2007. Environmental Management plans to return to the Board for award of the bid at it's April 17, 2007 meeting.

The Final Closure Plan and Postclosure Maintenance plan are on file at the Board Clerks office and can also be viewed at the Environmental Management Department located at 2850 Fairlane Ct., Placerville, CA
