Subject: S07-0020/Pacific House Auto Repair Special Use Permit

To: Planning Commission and Jason Hade

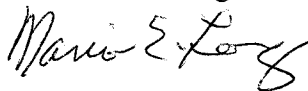

I request a two month continuance on the hearing currently scheduled for the January 8, 2009 – 8:30 A.M. Item 8:Special Use Permit; a. S07-0020/Pacific House Auto Repair.

I just received the planning department recommendation package on 12/29/2008. It was postmarked 12/22/2008. After reading the approval recommendations several of the items are significant and I was not aware they were an issue.

I need additional time to work these issues with the planning department, and possibly seek an working staff meeting between all the parties involved. I also am trying to seek the advice of the Supervisors on several of the issues raised.

Thank you for your consideration.

Marion E. Long
