ALL DEPARTMENTS

Consultants*	V
New Positions**	I

*Consultants are those persons defined by Title 2, California Code of Regulations, Section 18700.3(a), who contract with the County through any County Department. Disclosure Category V describes the process to be used to identify those contractors who meet the definition of consultant and thus must file a statement of economic interests.

****Persons in newly created positions that will make or participate in making governmental decisions on behalf of the County that are not yet listed in this Code shall file under Category I, the broadest disclosure category unless the department director or designee determines in writing that the new position performs a range of duties that are limited in scope and, thus, is not required to comply with the disclosure requirements of Category I. The department director or designee may tailor the disclosure requirements to the duties performed. The department director or designee must provide a written description of the new position's duties and based upon that description, a statement of the extent of disclosure requirements. FPPC Form 804 may be used to identify the new positions and the disclosure category.**

COUNTY OF EL DORADO
CONFLICT OF INTEREST CODE
APPENDIX OF DESIGNATED EMPLOYEES AND DISCLOSURE CATEGORIES
[Adopted as an appendix to the County Conflict of Interest Code on December 10, 2024]

The disclosure categories listed below identify the types of economic interests that the designated positions must disclose for each disclosure category.

PART B: DISCLOSURE CATEGORIES FOR DESIGNATED POSITIONS

CATEGORY I

Persons who are designated in this category must disclose all sources of income, interests in real property located in El Dorado County, investments in business entities and positions held in business entities located in or doing business in El Dorado County.

CATEGORY II

Persons who are designated in this category must disclose all sources of income, investments in business entities and positions held in business entities located in or doing business in El Dorado County.

CATEGORY III

Persons who are designated in this category must disclose investments in business entities, positions held in business entities and sources of income from providers of health care products and services or equipment. Such sources include dental, mental, and ambulance services and medical products, including prescriptions and well-being programs.

Persons who are designated in this category must also disclose investments in business entities, positions held in business entities and sources of income from those persons or entities which may be the recipient of patient referrals for the delivery of health care services or supplies by the county or any county-related entity.

Persons who are designated in this category must also disclose investments in business entities, positions held in business entities and sources of income from providers which are of the type that provide consultant services to any business entity or nonprofit corporation made reportable by this disclosure category.

CATEGORY IV

Persons who are designated in this category must disclose investments and business positions in business entities, and sources of income from persons or entities that provide supplies, services, products, materials, equipment, or machinery of a type utilized by the designated position's department, division, or unit.

CATEGORY V (CONSULTANTS)

Persons who meet the criteria to be considered “consultants” as defined in Title 2, California Code of Regulations (“CCR”), §18700.3(a), shall file a statement of economic interests. At the time the contract with the consultant is made, the County contract administrator shall make an initial determination whether or not the consultant meets the criteria of 2 CCR §18700.3(a) (quoted below). If it is determined that the consultant meets the criteria, the County contract administrator shall notify its department director who shall then make a final determination on the disclosure category. The department director or designee may determine in writing that a particular consultant, although a designated position, is hired to perform a range of duties that is limited in scope and thus is not required to fully comply with the broadest disclosure category. Such written determination shall include a description of the consultant’s duties and, based upon that description, a statement of the extent of disclosure requirements. Such determination is a public record and shall be retained for public inspection in the same manner and location as this conflict of interest code. FPPC Form 805 may be used to identify consultants and the disclosure category.

The current version of Title 2, California Code of Regulations, §18700.3(a), reads as follows:

(a) For purposes of Sections 82019 and 82048, “consultant” means an individual who, pursuant to a contract with a state or local government agency:

(1) Makes a governmental decision whether to:

(A) Approve a rate, rule, or regulation;

(B) Adopt or enforce a law;

(C) Issue, deny, suspend, or revoke any permit, license, application, certificate, approval, order, or similar authorization or entitlement;

(D) Authorize the agency to enter into, modify, or renew a contract provided it is the type of contract that requires agency approval;

(E) Grant agency approval to a contract that requires agency approval and to which the agency is a party, or to the specifications for such a contract;

(F) Grant agency approval to a plan, design, report, study, or similar item;

(G) Adopt, or grant agency approval of, policies, standards, or guidelines for the agency, or for any subdivision thereof; or

(2) Serves in a staff capacity with the agency and in that capacity participates in making a governmental decision as defined in Regulation 18704(a) and (b) or performs the same or substantially all the same duties for the agency that would otherwise be performed by an individual holding a position specified in the agency's Conflict of Interest Code under Section 87302.
