NOW, THEREFORE, County and Contractor mutually agree as follows:

ARTICLE I

- Develop questionnaires and agendas for specific meetings with Sheriff divisions to be distributed prior to scheduled meetings.
- Draft program (including narratives, space list relationship diagrams, and updated staff projections).
- Perform preliminary code/regulatory agency review(s).
- Meet with utility company to validate due diligence assumptions. Work with Facilities Project Management Team to determine sustainable maintenance and energy design goals.

- Architecture: Develop site plans and interior space plans based on updated program requirements; performance specifications for office, specialized space, security and essential service requirements; preliminary finish schedules; and facility hardening design parameters.
- Structural: Develop critical clear span and bay spacing along with vertical height requirements; and develop design parameters for specialized systems and equipment design constraints.

On-site solar will be a function of this RFP and the adjacent solar farm design will be handled separately.
- Specialized Equipment: Provide design performance criteria to integrate the facility with specialized equipment including but not limited to: evidence storage equipment, morgue equipment, crime scene investigation (CSI) equipment, 911 dispatch equipment, specialized security equipment, backup power systems, communications equipment including tower, and radio shop equipment, emergency operations center (EOC), shooting range, and training center.

- Landscape: Develop a conceptual landscaping and irrigation design narrative. Landscape design criteria should include integration of facility security into landscape design.
- Civil / Site Design: Develop design parameters for site design that include CEQA approval constraints, drainage, utilities, traffic, acoustical, site balance and access. The adjacent solar site requirements will be subservient to per square foot design needs. Solar farm design will be handled separately.
- Signage: Provide a signage narrative.
- Develop a cost estimate.

Deliverables: schematic design level documentation package sufficient to describe: project size, functional priorities, aesthetics, finishes, materials, colors, time critical construction completion requirements, sustainable features, cost effectiveness, level(s) of quality desired, security, audio/visual, and technology systems.

Notwithstanding any other provision of this Agreement to the contrary, County shall give notice of cancellation of this Agreement in the event of adoption of a proposed budget that does not provide for funds for the services, products or equipment subject herein. Such notice shall become effective upon the adoption of a final budget which does not provide funding for this Agreement. In the event of termination for default, County reserves the right to take over and complete the work by contract or by any other means.

In no event, however, shall County be obligated to pay more than the total amount of the contract.
