EL DORADO  
BOARD OF SUPERVISORS  
EL DORADO COUNTY

● **Comments:**

I direct this fax to all of the Board, but mostly to Supervisors, Knight, Sweeney & Briggs.

I cannot imagine, at this time with so many Contractors, Builders, Cabinet Companies, Tile Layers etc. out of work that you could in any way justify your vote on receiving stimulus money. It is quite clear that you put your own personal ideology above the needs and interests of your country people.

Turning down this money was just plain **STUPID !!!!!!!!!!!!!!!** This money will be spent, but now not in El Dorado County!

I was under the impression that at the County level you were not to be partisan, in fact your party affiliation was not listed when I voted. So in turning down this money you have betrayed the people who allow you to hold this office.

You have by your vote kept good hard working people from funds that could have helped many survive, from losing their homes or business. One Contractor on our street has already lost his home and we are working for better times, but there is no guarantees. This money could have been used for the very work we do, Remodels. **So I hope your ideology lets you sleep at night!!!**
