

Table 1

WEST SLOPE		
Program Name	Fee	Summary of Costs
CSA 10 Solid Waste	\$17.00/EDU	Solid Waste – This charge is applicable to all West Slope improved parcels and was first adopted in 1988/1989. The fee is used in conjunction with other revenues to operate the West Slope Solid Waste and Litter Abatement Program. The activities of this program are to pick up litter for all the west slope, address illegal disposal, promote recycling activities, initiate and oversee, where possible and appropriate, “Adopt a Highway Programs” and work with code enforcement to prosecute violators. This fee also aids in the operational, post-closure upkeep and overhead costs for the Union Mine Landfill, including ground and surface water monitoring and landfill gas compliance. Other programs funded through this fee include the Waste Discharge Requirement (WDR), implementation and maintenance of a state mandated Integrated Waste Management Plan (AB939) and for financing waste collection, processing, reclamation & disposal services.
CSA 10 Liquid Waste	\$15.00	Liquid Waste (Septage) – This charge is applicable to each improved parcel on a septic system in the County and has been in effect since 1988/1989. This charge is used in conjunction with other revenues for the operational and overhead costs of the Union Mine Septage Facility.
CSA 10 Household Hazardous Waste	\$3.00/EDU	Household Hazardous Waste – This program was established in 1989/1990 for the purpose of diverting hazardous waste from the landfills and is applicable to all parcels on the West and East Slope. This fee pays for the disposal and overhead costs of the household hazardous waste collected at 1 fire station, one-day collection events and 21 certified used oil collection centers. This fee also partially supports the two additional permanent household hazardous waste facilities at the Material Recovery Facilities (MRFs) in South Lake Tahoe and Diamond Springs.
