SOFTWARE LICENSE AGREEMENT

Schedule A – Support Terms

Licensee may elect to obtain optional Software Support and Maintenance ("Support"), as indicated in the Configuration section of the Agreement. Support for the Software identified in the Configuration section, shall be provided in accordance with the following terms and conditions:

1. GENERAL. Licensor shall provide technical support of the Software. Support consists of technical assistance related to installation, program operations, and apparent program malfunctions. Support does not include consulting, training, or assistance with any matter not related to the operation of the Software. Support is annual and coincident with the period of Support, as indicated in the Configuration section of the Agreement.
2. CONTACT METHOD. Licensee may contact Licensor for support via email or phone. Support via email is the preferred method, wherein Licensee emails a support request and attaches related input files or other data. Alternatively, Licensee may access support via phone or voice mail. Licensee may be required to leave a message containing pertinent information, providing enough contact information to allow Licensor to respond.
 - a) Email (preferred) may be sent to: Vsupport@Viathor.com
 - b) Phone / voice mail support number: 916-987-0246
3. RESPONSE TIME. Licensor will endeavor to respond to requests for support by the next business day after the request is received. A support response does not infer a complete resolution of the support request, but the response does acknowledge that Licensor has received the support request and is actively considering it. Licensor reserves the right to a longer response time due to unforeseen circumstances.
4. SOFTWARE VERSION. Support will only be provided for requests based on the current version of the Software. A current agreement containing Support allows the Licensee to obtain the current version of the Software. Therefore, Licensor reserves the right to refuse support based on earlier versions of the Software. In the event that Licensee discontinues Support or allows Support to expire, and later desires to update the Software to the current version, Licensor reserves the right to charge Support fees for the entire time the Software was unsupported, as if the Software had been continually supported from the Support Origination Date indicated in the Configuration section of the Agreement.
5. EXPECTATIONS. Licensee is expected to select Software users who are qualified to operate the Software, and who have a general knowledge of the Software input data, calculations, and results performed and produced by the Software. Licensee is expected to review and utilize Software documentation and help systems before requesting support from Licensor. If Licensee requests support on basic engineering principals or any other matter not related to the operation of the Software, Licensor at its sole discretion, reserves the right to refuse support or charge an additional fee to provide such support.
6. AMENDMENTS. Licensor reserves the right to amend or change these Support Terms at any time. In the event that Licensee does not accept the changed Support Terms, Licensee may request a pro-rated refund of any remaining Support fee for the year in which the change is made, and the Support shall be discontinued. To obtain the pro-rated refund, Licensee must notify Licensor in writing within one (1) month of the change in Support Terms, and identify the reasons for not accepting the amendments.
