# MITIGATION MONITORING AND REPORTING PROGRAM

---

## INTRODUCTION

The California Environmental Quality Act (CEQA) Guidelines, Section 15091(d), requires public agencies, as part of the certification of an environmental impact report, to adopt a mitigation monitoring and reporting program to ensure that changes made to the project as conditions of project approval to mitigate or avoid significant environmental effects are implemented. The Mitigation Monitoring and Reporting Program (MMRP) contained herein is intended to satisfy the requirements of CEQA as they relate to the Sign Ordinance Update Project (Project) in the County of El Dorado (County). The MMP is intended to be used by County staff and mitigation monitoring personnel during implementation of the Project.

## COMPLIANCE CHECKLIST

Table 1 contains a compliance-monitoring checklist that identifies the newly adopted mitigation measure, identification of agencies responsible for enforcement and monitoring, and timing of implementation.

**MITIGATION MONITORING AND REPORTING PROGRAM**
