Edcgov.us Mail - TOT Funding of Community Design Standards

Public Comment #3
County of El Dorado Clerk of the Board <edc.cob@edcgov.us>

TOT Funding of Community Design Standards

LATE DISTRIBUTION

Nikki <ntcostello@sbcglobal.net>

To: edc.cob@edcgov.us

Mon, Mar 29, 2021 at 4:51 PM

DATE 3/30/2021

I am writing in support of allocating \$350,000 of TOT funds toward creation of community design standards for our rural communities in El Dorado County to help protect the rural character of those communities.

Please forward this email to the five County Supervisors.

I would also like to express frustration and dissatisfaction with the lack of progress in finalizing and adopting design standards for the Shingle Springs community. The Shingle Springs Community Alliance (SSCA) described the lack of progress in a November 27, 2020 letter to the El Dorado County Planning Services. A December 2, 2020 email reply from Tiffany Schmid of Planning Services stated that the SSCA should be hearing from the Deputy Director of Public Planning and/or the Acting Planning Manager regarding resumption of the design standards project that has been halted for over one year now. There has been no reply to date. This lack of engagement sends the message that the County does not take this issue seriously. I hope that is not the case.

Please provide the TOT allocation of funds to support creation of design standards for our rural communities.

Thank you,

Tim Costello
Shingle Springs

Dear Clerk of the Board,

I want to voice my strong support for Supervisors Parlin and Turnboo recommendation to the Board to direct staff to include a \$350,000 allocation of the TOT 2020-2021 fund balance in the recommended budget for the purpose of hiring temporary staff or a consultant to exclusively engage with rural communities to create design standards and/or community-oriented policies.

Please forward this email to all five of our county Supervisors.

Thank you,
Susan Statti
