

Hangtown Branch & Unit 275

Biggest Little Branch on the West Coast

To El Dorado County officials – Request for Reimbursement

September 25, 2021

“To whom it may concern” including:

Richard W. Todd, MBA – Veterans Services Program Manager

Patty Moley – Assistant Director of Human Services

Russ Fackrell – Facilities Manager, Facilities Division

Angelo Troquato – Project Manager, Facilities Division

Fleet Reserve Association Branch 275 respectfully requests reimbursement for loss of income. This loss of income is due to the unavailability of the Veterans Memorial Building (130 Placerville Drive) during the recent Caldor fire. The VMB is where Fleet Reserve Branch 275 prepares and serves their “Second Sunday Community Breakfast. These breakfasts are part of our effort to provide the community with quality, low cost meals, and at the same time raise funds for our Post. All of the funds raised at our breakfasts stay here in El Dorado County to assist needy veterans and their families.

CalFire and USFS commandeered our parking lot for their Incident Command Center and Media office. We understand that need at a time of crisis in the County. A low average attendance at our breakfast is 100 patrons. We charge \$6.00 per person, so we are asking to be reimbursed \$600.00 for lost revenue for the breakfast we had to cancel on September 5th, 2021.

We thank you for your attention, time and consideration in this matter.

Sincerely,

Charles Sweet

President, Branch and Unit 275, Fleet Reserve Association
