

## Draft TDM Results - Scenario 1 Summary

**Historical Growth Rate with Historical Distribution, RHNA (approximately 54% within Community Regions and approximately 46% in Rural Centers/Regions)**

**Summary of Potential Improvements Needed if Improvements identified in the 2013 Capital Improvements Program are not constructed**

ROAD NAME	SEGMENT	Gen. Plan Max LOS	Road Classification	Community Region (CR), Rural Center (RC), Rural Region (RR)	Year 2035		Potential Improvements Needed <sup>5</sup>	Rough Estimated Cost of Improvements (in millions) <sup>6</sup>	Comment	
					WKDY AM PK HR	WKDY PM PK HR				
					LOS (Using HCM2010)	LOS (Using HCM2010)				
<b>LOCAL ROADS</b>										
GREEN VALLEY ROAD	County Line to Francisco Dr	E	2A	CR	F	F	4AD - 4 lane divided	\$0.0	To be constructed by City of Folsom	
	Francisco Dr to Salmon Falls Rd	E	2A	CR	F	F	4AD - 4 lane divided	\$2.8		
SILVA VALLEY PARKWAY	U.S. Highway 50 to Serrano Parkway	E	2A	CR	F	D	4AD - 4 lane divided	\$0.0	To be constructed with Silva Valley Parkway Interchange	
WHITE ROCK ROAD	County Line to Manchester Dr.	E	2A	CR	D	F	4AD - 4 lane divided	\$19.1		
	Latrobe Rd to Silva Valley Pkwy	E	2A	CR	D	F	4AD - 4 lane divided	\$3.3		
<b>U.S. 50</b>										
WB	Latrobe Rd to Silva Valley Pkwy	D/E	2F	RR/CR	F	E	Addition of Auxiliary Lane with possible Interchange Work	\$6.8	Cost only includes the Auxiliary Lane, not potential interchange work. Cost includes segment from EDH Blvd/Latrobe Rd to Silva Valley to avoid double counting costs	
WB	Silva Valley to Bass Lake Rd	D/E	2F	RR/CR	F	E	Addition of Auxiliary Lane with possible Interchange Work	\$10.2	Cost only includes the Auxiliary Lane, not potential interchange work. Cost includes segment from EDH Blvd/Latrobe Rd to Silva Valley to avoid double counting costs	
WB	Bass Lake Rd to Cambridge Rd	D/E	2F	RR/CR	E	E	Auxiliary Lane with possible Interchange Work	\$15.3	Cost only includes the Auxiliary Lane, not potential interchange work	
EB	Bass Lake To Cambridge	D/E	2F	RR	D	F	Auxiliary Lane with possible Interchange Work	\$15.30	Cost only includes the Auxiliary Lane, not potential interchange work	
<b>TOTAL</b>								<b>\$72.8</b>	<b>M</b>	

**Notes:**

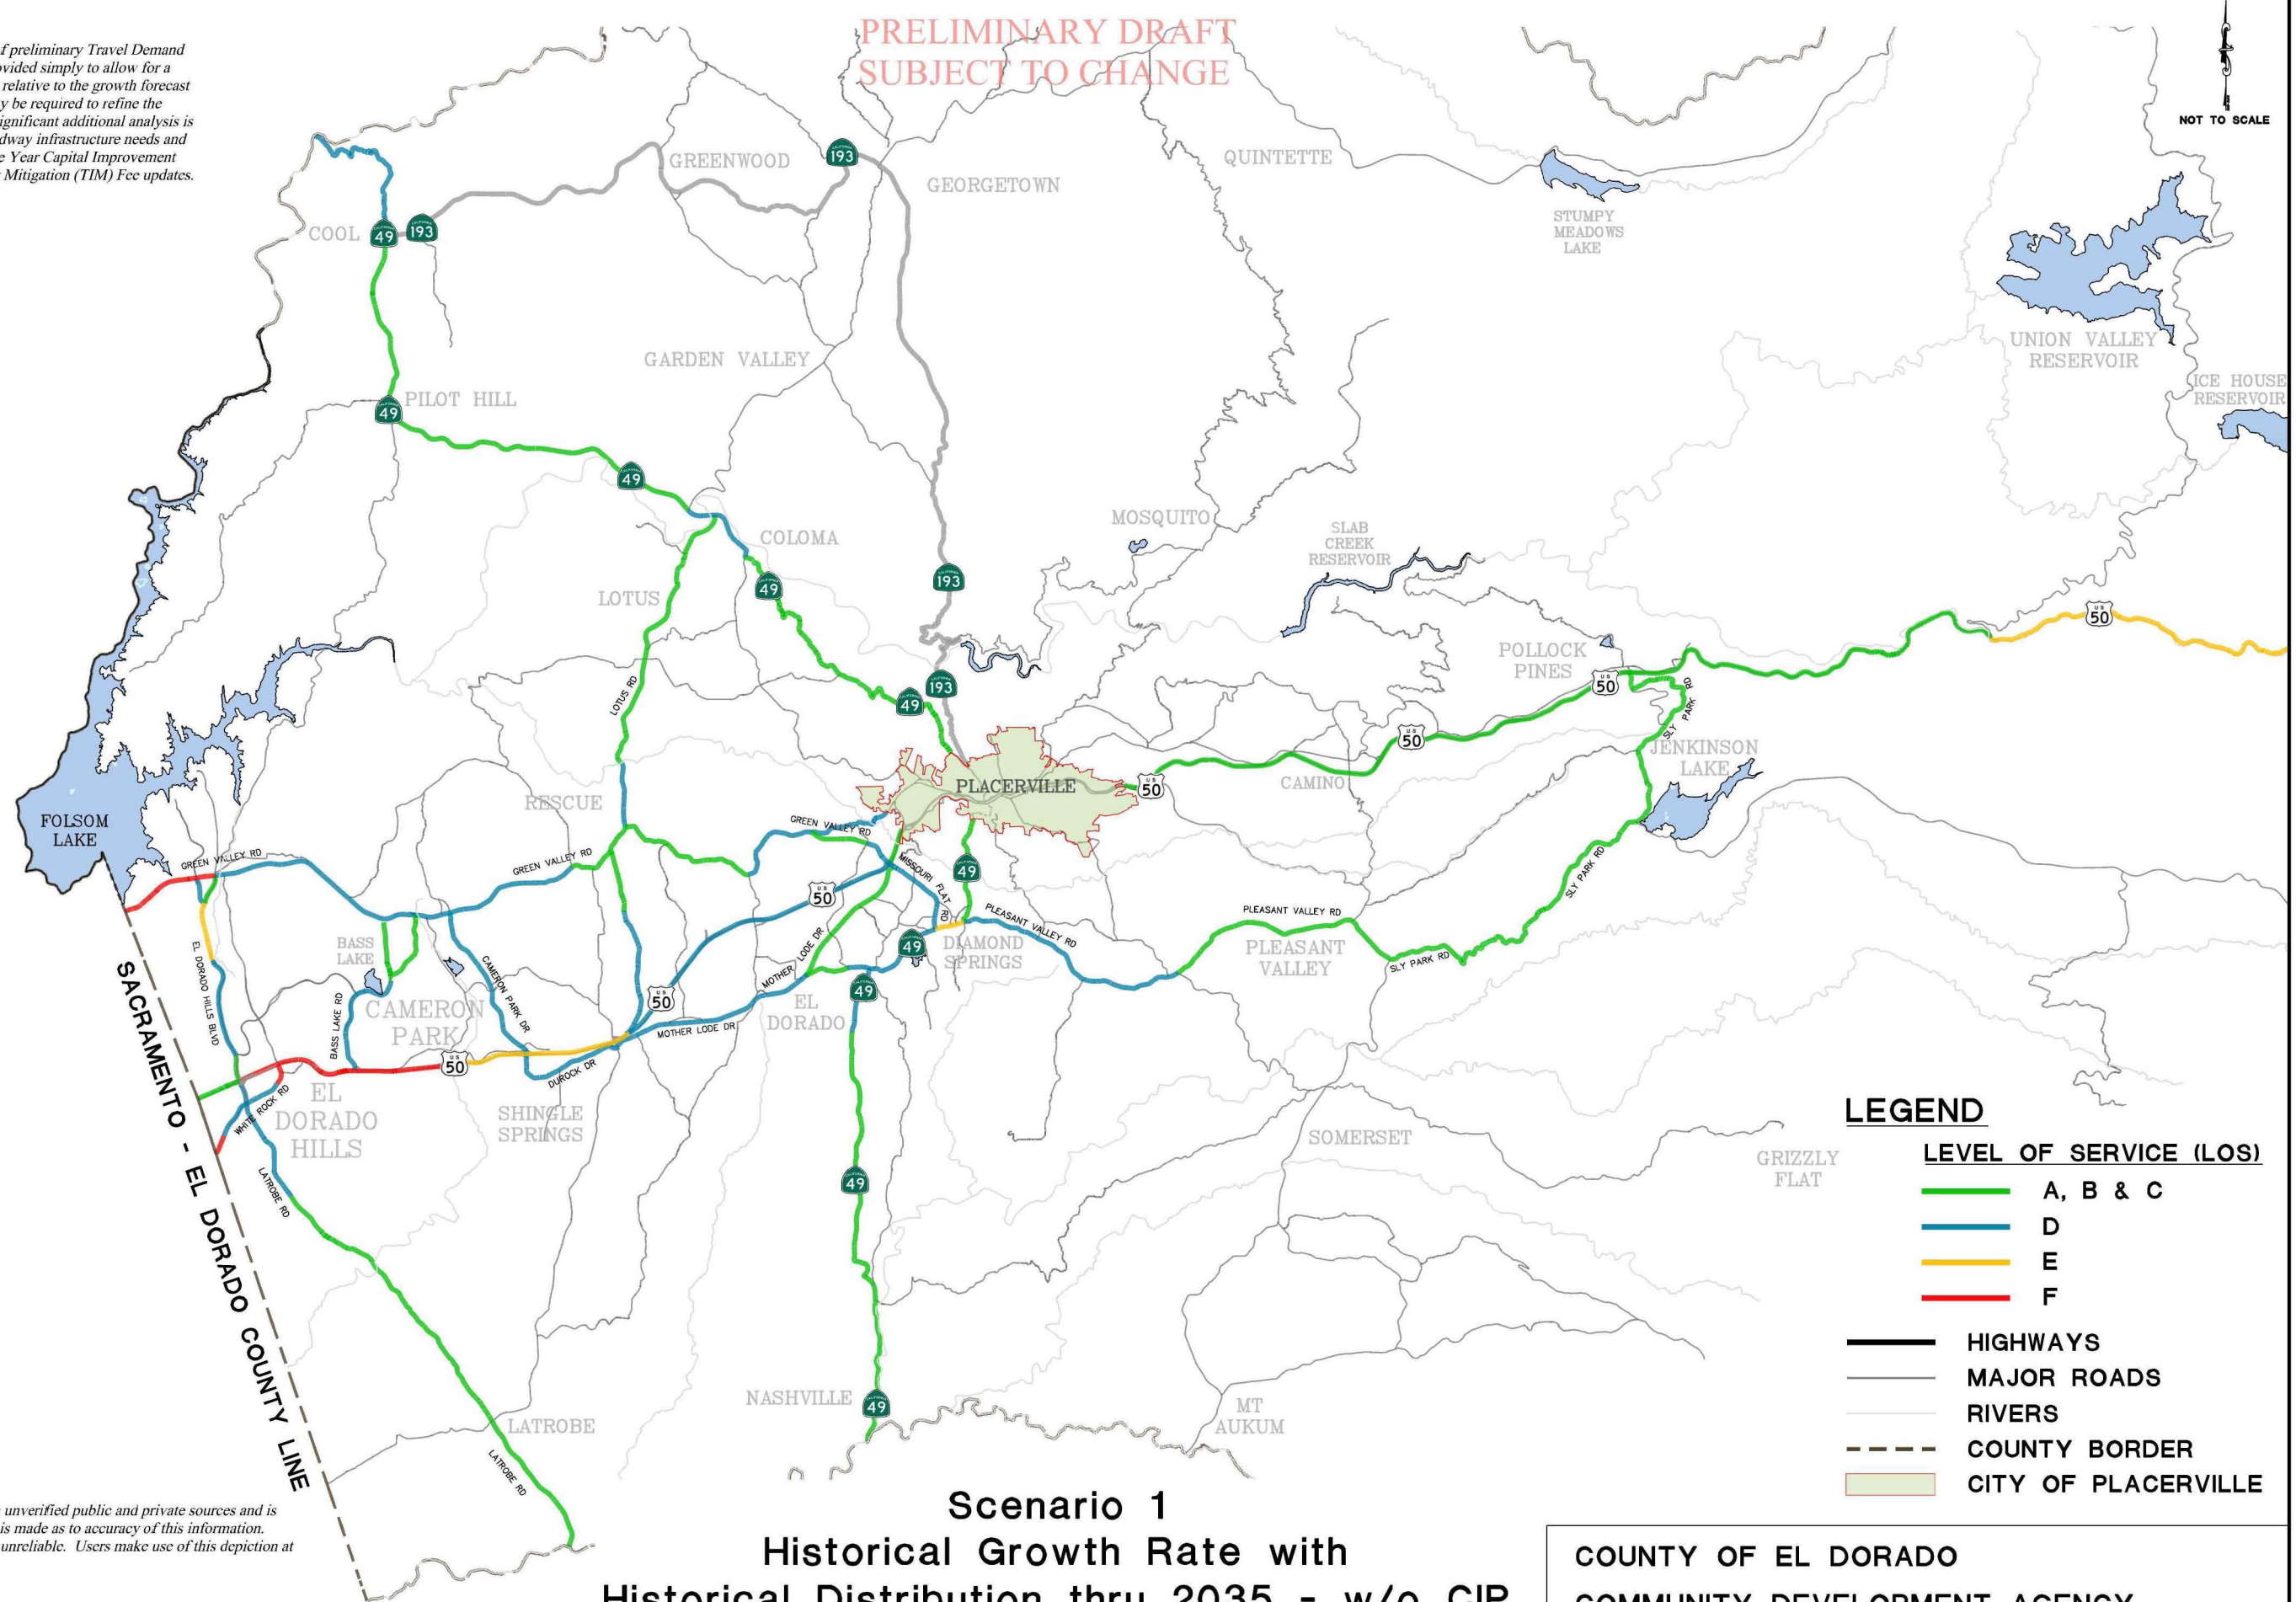

- Existing TIM Fee projects which have reimbursement agreements, in construction, completed is approximately \$325M. Some of the projects listed above, or portions thereof may be a part of the \$325M.
- The Historical Growth Rate is 1.03% Based on BAE Urban Economics Report as shown in Attachment I.
- Scenario 1 includes the Regional Housing Needs Allocation (RHNA)
- This Draft information is a result of preliminary TDM runs; it is being provided simply to allow for a comparison of potential outcomes relative to the growth forecast scenarios. Significant additional analysis is required to determine detailed roadway infrastructure needs and associated costs for the Major Five Year Capital Improvement Program (CIP) and Traffic Impact Mitigation (TIM) Fee updates.
- The draft estimated costs shown are very rough ballpark estimates. These estimates were created using the methodology used for the 2004 General Plan TIM Fee update, with lane-mile costs updated to reflect costs used in the County's 2013 CIP for projects in the 10- and 20-year CIP. These ballpark estimates do not take into account project-level details that are unknown at this time, including but not limited to: damages as a result of right-of-way acquisition (e.g. required purchase/displacement of homes, businesses, drainage or utility structures), the requirement of additional drainage facilities, retaining walls, etc. This draft information is being provided simply to allow for a comparison of potential outcomes relative to the growth forecast scenarios. Significant additional analysis is required to determine detailed roadway infrastructure needs and associated costs for the Major Five Year Capital Improvement Program (CIP) and Traffic Impact Mitigation (TIM) Fee updates.
