Labrobe may have plot space available, but cannot estimate availability without a GPR survey.

Mormon Island has about 60 plots available, but need to determine if these must be reserved for relocations.

Mormon Island also has 2.5 acres of undeveloped land, which could provide at least 390 full plots, with same caveat.

Pilot Hill has 2.5 acres of undeveloped land, which could provide at least 390 full plots.

Placerville Union has 14 additional plots which are for sale by the owners of the plots, and GPR may reveal more.
