## LICENSE AGREEMENT (069-L0011)

THIS LICENSE AGREEMENT (the "Agreement") is made as of October 01, 1999, by and between EI DORADO CELLULAR, A CALIFORNIA CORPORATION, D.B.A. MOUNTIAN CELLULAR having an address at 2849 Ray Lawyer Drive, Placerville, California 95667 ("Licensor") and the party whose name and address are as follows ("Licensee").

Name: El Dorado County, political subdivision of the State of  
California  
360 Fair Lane  
Placerville, CA 95667  
Contact: Director of General Services

A. Licensor is the owner of a communications tower (the "Tower") and Communications Building (the "Building") located on real property situated at Union Hill in El Dorado County, California (the "Site"). The Tower, Building and Site are more particularly described in Exhibit A attached hereto and incorporated herein by reference.

B. Licensee desires to use portions of the Tower (when applicable) and the Building for the purpose of installing and operating certain antennas and related equipment as hereinafter described, and Licensor desires to grant to Licensee a license to use, on a non-exclusive basis, such portions of the Tower and the Building necessary for the installation of Licensee's equipment.

NOW, THEREFORE, in consideration of the following mutual exchange of promises and covenants herein and the benefits to each of them, the parties agree as follows:

1. Grant of License. Licensor hereby grants to Licensee a non-exclusive license to use the portions of the Tower and the Building identified in Exhibit B (the "Licensed Premises") to install, maintain and operate on the Tower the antenna or antennas identified in Exhibit C ("Licensee's Antennas"), and to install, maintain and operate in

the Building the equipment identified in Exhibit C ("Licensee's Equipment"). Licenser reserves the right to change the specific location of Licensee's Antennas on the Tower, provided, that any such relocation shall not materially and adversely affect the operation of Licensee's System. Licensee's Antennas and Licensee's Equipment are hereinafter referred to collectively as "Licensee's System." During the term of the License granted herein, Licensee shall have a non-exclusive right of ingress to and ingress from the Licensed Premises. Licenser shall provide Licensee with all keys, combinations, and/or cards necessary to allow Licensee access to the Licensed Premises. Licensee shall use the Licensed Premises for the purpose of operating a radio paging telecommunications system pursuant to authority granted by the Federal Communications Commission ("FCC"). Nothing herein is intended to create an estate or tenancy in the Tower, the Building or the Site in favor of Licensee, which shall have only a right of use of the Licensed Premises on the terms set forth herein. It is the express intent of Licenser to provide for the installation of antenna combiner systems in the future. Licensee agrees to the use of a combiner system provided by Licenser if and when such a system is installed; provided, that the use of the combiner does not materially diminish the ability of the Licensee to sustain its prior-established level and quality of telecommunications service at the Site.

2. Term. The License granted hereunder shall be for an initial term of five (5) years commencing on the date stated at the head of this Agreement and subject to earlier termination as provided in this Agreement.

Extension of Term. Licensee shall have the option to extend the initial Term of this Agreement on the same terms and conditions set forth in this Agreement for up to three (3) additional five (5) year periods. Licensee must provide written notice to Licenser of its intent to exercise its option to extend no less than thirty (30) days prior to the expiration of the initial or subsequent term.

3. License Fee. Commencing on October 01, 1999, Licensee shall pay to Licenser a fee ("License Fee") in the sum of One Hundred (\$100.00) per transmitter each month, subject to adjustment as provided herein. The total rent for the two

transmitters will be paid annually in advance (total: \$2,400.00). Licensee shall notify Licensor immediately upon completion of installation of Licensee's System. Failure to advise Licensor of that date shall be grounds for immediate termination of this Agreement by Licensor. The License Fee shall be due and payable in advance on the first day of each month and shall be deemed delinquent if it is not received by Licensor on or before the 10th day of the month. If the monthly License Fee is not paid when due, then the amount due and unpaid shall be subject to a late charge at the rate of ten percent (10%) per annum from the date due until paid. On the License anniversary date of each calendar year, if Licensee's System continues to occupy the Licensed Premises, Licensor may, at Licensor's sole discretion, adjust the License Fee to reflect market conditions at the Site, provided, however, that such adjustment will not at any such time exceed an amount equal to five percent (5%) of the then immediately preceding monthly License Fee. The increased License Fee shall be rounded up to the next highest dollar amount.

Licensee currently licenses communication equipment in Licensor's vault located at Union Hill Radio Facility in Pollock Pines, Ca 95726 as depicted in this Agreement #069-L0011.

As long as this Agreement (069-L0011) and the Facility Use Agreement (355-09911) are in full force and effect, neither El Dorado County and/or Mountain Cellular shall be obligated to exchange rent payments.

If and when this License Agreement (069-L0011) or Facility Use Agreement (355-09911) terminates or is significantly modified, both entities shall re-negotiate compensation for the remaining Agreement term. Said re-negotiated compensation shall be documented in writing and shall become in full force and effect only upon full agreement and execution by the parties hereto.

4. Site Management. Licensee shall comply fully with the directions and requirements of the Site Manager in connection with this Agreement and the operation of Licensee's System hereunder.

5. Installation of Licensee's System. Licensee shall install, maintain and operate Licensee's System at Licensee's own expense shall comply with all laws, regulations and federal, state and local statutes and ordinances having jurisdiction over Licensee's System. All work done by Licensee or its contractors, whether in the initial installations or in the repair maintenance thereof, shall be covered by Workers' Compensation Insurance in such amounts as are required by law. Upon the completion of the installation of Licensee's System, Licensee shall remove all packaging material and miscellaneous litter from the Site. Licensee's System is and shall remain, except as otherwise provided herein, the sole property of Licensee and shall be removed from the Licensed Premises at Licensee's expense upon the termination of this Agreement. Licensee shall install such isolators, cavities, and filters on Licensee's System as may be necessary at a minimum to comply with the Site Standards listed in Exhibit "D." Licensee shall maintain and operate Licensee's System in accordance with the highest engineering standards prevailing in the communications industry. Licensee shall clearly and conspicuously mark Licensee's Antennas and Licensee's Equipment with Licensee's name and frequency number(s). Licensee shall also post a copy of its Federal Communications Commission ("FCC") license on Licensee's Equipment upon installation. The installation location of all antennas and other components comprising Licensee's System shall be subject to the prior approval of Site Manager. No antennas or equipment other than as set forth in Exhibit C shall be installed by Licensee without Site Manager's prior written consent. If any equipment other than that described in Exhibit C is installed by Licensee, Licensor may, at Licensor's sole discretion, increase the amount of the License Fee set forth in Section 3, which increased License Fee will be determined by Licensor and/or Site Manager. Licensee shall, in the use of the Licensed Premises, comply with all federal, state, county, and local governmental laws, rules, and regulations.

6. Interference - Licensee's Obligation. At all times during the term of the License, Licensee shall use equipment of a type and tuned to a frequency that will not cause interference to any other licensee on the Tower, in the Building or on the Site, and, except

as otherwise provided in Section 5, Licensee shall make no changes in or to its equipment or to its frequencies. If Licensee's equipment causes interference in violation of this Section, Licensee shall take all steps necessary to correct or eliminate such interference. If such interference cannot be corrected within ten (10) days of Licensee being informed in writing by Licensor and/or Site Manager, of such interference, Licensor may, at Licensor's sole discretion, terminate the License immediately or, alternatively Licensor may require that Licensee cease operation of Licensee's System until such interference can be corrected or eliminated, at which time Licensee may resume operation of Licensee's System.

7. Interference - Licensor's Obligations. Subsequent to the date of this Agreement, Licensor shall not license or permit other persons or entities to use Licensor's facilities at the Site if Licensee's then-in-use signal or frequency or the physical location of Licensee's equipment would cause interference with such new licensee so as to cause Licensee to be in breach of the terms of Section 6. Licensor will not license or permit other persons or entities to use Licensor's facilities at the Site, if such use would cause interference with Licensee's then-in-use frequency or signal or with Licensee's Equipment.

If Licensee notifies Licensor or Site Manager of interference caused by any subsequent licensee, Licensor shall take all steps necessary to correct and eliminate such interference, including, without limitation, enforcing provisions in any license or other agreement between Licensor and the persons or entities causing such interference pursuant to which Licensor may compel such persons or entities to cease operation, modify their equipment and/or antennas, or remove their equipment and/or antennas from the Tower, the Building or the Site. Nothing contained in this Section or any other provision of this Agreement shall be deemed to affect either party's right at any time to terminate this Agreement with or without cause pursuant to the provisions of Section 2.

8. Alterations. Licensee shall obtain the prior written consent of Site Manger before making any additions to or alterations of the Licensed Premises. Any such additions and/or alterations may also be subject to Licensor's prior written approval and, if approved, shall be

made at the sole expense of Licensee. Upon termination of this Agreement, Licensee shall remove all alterations, additions and improvements made or installed by Licensee and restore the Licensed Premises to the same or as good condition as existed on the day of entry under this Agreement, reasonable wear and tear excepted.

9. Personal Property Tax. Licensee shall be liable for and shall pay all taxes and special assessments levied on or against Licensee's System and any other personal property of Licensee located or about the Licensed Premises within the time allowed by the taxing authorities in order to avoid penalties.

10. Maintenance of Licensed Premises. Licensee shall not maintain nor permit any nuisances on the Licensed Premises, nor permit the Licensed Premises to be used for any purpose or use in violation of any of the laws, ordinances, rules or regulations of any public authority applicable thereto. Licensee shall at all times ensure that Licensee's agents and other authorized personnel remove any objects from the Site that are brought to the Site by such personnel but are not a part of Licensee's System, such as tools, discarded or unused parts and materials, debris and any litter or trash generated by such personnel at the Site.

Licensee shall pay an annual fee of One Hundred and Twenty Dollars (\$120.00) toward the cost of maintaining the Site access road. Licensee shall not be obligated to pay the access road maintenance fee until such time as it receives an invoice from Licensor. Licensor reserves the right to invoice Licensee less frequently than annually and, in that event, the fee shall accumulate from year to year. Any amount not collected by Licensor shall be due and payable at the termination of this License Agreement.

11. Utilities. Licensor shall make available to Licensee electrical service for the purposes of operation of Licensee's System. Any and all electrical service facilities installed by Licensor for the sole and specific benefit of Licensee hereunder shall be installed at Licensee's expense. In no event shall Licensor be liable to Licensee for any interruption, change in quality, or failure in the supply of any utility used by Licensee in the operation of

Licensee's System. Licensor shall use its best efforts to secure the restoration and/or repair of such utility in the event of any such interruption, change in quality, or failure in supply.

12. Termination in the Event of Casualty or Condemnation. In the event of any damage, or destruction or condemnation of the Tower, the Building and/or the Site, or any part thereof, which renders the Licensed Premises unusable or inoperable, Licensor shall have the right, but not the obligation, to terminate this Agreement and all of its duties and obligations hereunder by giving written notice to Licensee within thirty (30) days after such damage, destruction or condemnation. If Licensor does not terminate this Agreement, the License Fee payable hereunder shall be reduced or abated in proportion to the actual reduction or abatement of use of the Licensed Premises. Licensor shall make any necessary repairs to the Licensed Premises caused by any such damage or destruction and shall be entitled to use any and all insurance proceeds to pay for any such repairs. Licensee acknowledges that Licensee has no property interest in the Tower, the Building, or the Site. Licensee shall not be entitled to any condemnation proceeds paid as a result of any condemnation of all or any portion of the Site.

13. Licensor's Access. Licensor shall be entitled to enter the Licensed Premises for any purpose related to Site operations. In an emergency, Licensor and/or Site Manager shall have the right to enter the Licensed Premises and shall have access to Licensee's System for the purpose of eliminating or attempting to eliminate any interference caused by Licensee's System. Upon execution of this Agreement and at any time during the term of this Agreement, as needed, Licensee shall deliver to Licensor all keys, combinations, and/or cards necessary to allow Licensor access to the Licensed Premises and to Licensee's System as provided for in this Section.

14. Approvals and Permits. Licensee represents that prior to execution of this Agreement, Licensee has obtained all required permits and/or licenses pertaining to the installation, operation, maintenance and repair of Licensee's System on the Licensed Premises, including but not limited to an FCC license and appropriate certification from the California Public Utilities Commission ("CPUC"), if required.

15. Indemnification: Risks Assumed by Licensee. Licensee assumes all risk of damage or loss to its property on the Licensed Premises, except such damage or loss as may be caused by the willful negligence or intentional acts of Licensor, and such risk shall be and remain exclusively Licensee's responsibility and not that of Licensor. Licensee shall indemnify and save harmless Licensor, its owners, principals, directors, officers, agents and employees from and against any liability or expense that shall or may arise because of any claim asserted by Licensee or others due to the destruction of or damage to Licensee's property located in, on or about the Licensed Premises, except as may be caused by the willful negligence or intentional acts of Licensor or third parties. Licensor shall exercise reasonable care in the management of the Tower, the Building, and the Site in order to avoid destruction of or damage to Licensee's property located thereon.

Licensee shall be solely responsible for damages or claims for damages arising from injury (including death) or damage to persons or property occasioned by, or claimed to be occasioned by, or caused by any act, omission, fault or negligence of Licensee, or from injury (including death) or damage to Licensee's employees or employees of Licensee's contractors and subcontractors occasioned by, or claimed to be occasioned by, the acts or omissions of Licensor, except such acts or omissions as may be due to the willful negligence or intentional acts of Licensor or third parties.

Licensee shall indemnify, defend and save harmless Licensor from and against any and all losses, damages, claims, suits, legal proceedings, demands, actions or rights of action at law or in equity, costs and expenses of any kind (including without limitation reasonable attorneys' fees) arising from, or allegedly arising from:

- (a) Any alleged act, omission, fault or negligence of Licensee; or
- (b) Injury (including death) or damage to Licensee's employees or employees of Licensee's contractors and subcontractors occasioned by or allegedly occasioned by any

act or omission of Licensor, other than such injury (including death) or damage as may be due solely to the willful negligence or intentional acts of Licensor or third parties; or

(c) Licensee's use and occupancy of the Licensed Premises, or any part thereof.

16. Insurance. Licensee shall throughout the term of the License at Licensee's expense insure all of Licensee's operations and activities on the Licensed Premises and on and about the Tower, the Building and the Site, including without limitation the operations of contractors and the operation of vehicles and equipment thereon, with limitations of not less than \$1,000,000 for bodily injury and \$1,000,000 for property damage.

Licensee shall also cause the contractors erecting Licensee's Antennas, and Licensee's Equipment and/or making repairs or changes thereto to procure comprehensive public liability insurance complying with this Section prior to the performance of any such activities on behalf of Licensee and shall furnish evidence thereof to Licensor prior to undertaking any such work on behalf of Licensee.

If Licensee shall fail, within thirty (30) days after written notice from Licensor, to meet the insurance requirements contained in this Section hereunder, or shall fail to cause contractors to procure the insurance policies required thereunder.

Licensor may, but shall not be required to cancel this License on ten (10) days prior written notice to Licensee.

17. Default. The following shall be deemed to be events of default by Licensee under this Agreement:

(a) The License Fee or any other payment due from Licensee to Licensor under this Agreement remains unpaid for more than ten (10) days after the date upon which the same becomes due and payable.

(b) Licensee fails to comply with any of the terms, conditions and covenants herein and does not cure such default within ten (10) days after written notice thereof to Licensee or, if such default cannot reasonably be cured within the ten (10) day period, Licensee has not commenced to cure such default within ten (10) day period with reasonable diligence and in good faith and does not cure such default within thirty (30) days after the date of such notice.

(c) The non-renewal, revocation, or cancellation of the common carrier construction permit and/or license issued to Licensee by the FCC for purposes of conducting its communications operations from the Site.

(d) Licensee files a petition under any section or chapter of the federal Bankruptcy Code, as amended or under any similar law or statute subject of any involuntary bankruptcy proceedings under any such laws or is adjudged bankrupt or insolvent in proceedings filed against Licensee thereunder.

Upon the occurrence of an event of default, Licensor may terminate this Agreement, remove all of Licensee's Antennas and Licensee's Equipment from the Licensed Premises, store the same at Licensee's expense, and re-license the Licensed Premises, all without prejudice to any other remedies Licensor may have at law, in equity, and under this Agreement. Any equipment so removed will be returned to Licensee upon payment in full of all storage costs and past due License Fees, if any. If, within thirty (30) days of such equipment removal, Licensee has not requested the return of Licensee's Antennas and Licensee's Equipment and paid any sums owed for storage and fees, then Licensor may exercise all rights of ownership over such antennas and equipment, including the right to sell such antennas and equipment and retain possession of all sale proceeds, notwithstanding Section 5 of this Agreement.

**18. Termination.** At the option of Licensor, this Agreement shall terminate upon the occurrence of any of the following events effective as of the date of the occurrence thereof:

(a) If any or all of the Tower, the building, the Site, or any or all of Licensor's equipment at the Site is damaged or destroyed, in whole or in part, by fire, lightning, wind storm, hail, explosion, earthquake, collapse, aircraft or other vehicular induced damage, vandalism, malicious mischief, or any other event of casualty, whether insured against or not, in any such case as to render impracticable communications therefrom, which determination shall be in the sole discretion of Licensor; provided, however, that Licensor may, at its option and without termination of this Agreement, repair any of its equipment so damaged or destroyed and restore Licensee to its use of Licensor's equipment upon completion of such repairs. Licensee shall be entitled to a prorated reduction in the License Fee required herein for any period during which Licensee's use is interrupted for the purpose of making such repairs to Licensor's equipment.

(b) Should Licensee install or have installed any equipment on the Licensed Premises other than that described in Exhibit C without first obtaining Site Manager's written consent, Licensor may immediately terminate this Agreement, have all of Licensee's equipment removed from the Licensed Premises, and store such equipment at Licensee's expense all without prejudice to any other remedies Licensor may have provided for herein or by law or in equity. Any damages occasioned by such removal are expressly waived by Licensee. Any equipment so removed will be returned to Licensee upon payment in full of all storage costs and past due license fees, if any past due license fees remain unpaid.

(c) In the event of termination of this Agreement for any reason, Licensee's failure to remove its equipment within thirty (30) days thereof will result in the equipment being deemed abandoned. Abandoned equipment shall become the property of Licensor.

**19. Assignment.** Licensee shall not voluntarily or by operation of the law assign, mortgage, transfer, pledge, sublicense or otherwise transfer or encumber all or any part of

Licensee's interest in this Agreement or in the Licensed Premises. Any purported or attempted assignment, mortgage, transfer, pledge, sublicense or encumbrance shall be void, and shall constitute a breach of this Agreement.

20. Notices. All statements, notices or communications that either party may desire or be required to give to the other, shall be in writing and shall be addressed as follows:

To Licensor: El Dorado Cellular,  
A California Corp, D.B.A.  
Mountain Cellular  
2849 Ray Lawyer Drive  
Placerville, California 95667  
Attn: Scott A. Hamilton - V.P. - Operations

To Licensee: El Dorado County Communications  
360 Fair Lane  
Placerville, California 95667  
Attn: Director of General Services

Either party may, by giving notice to the other in the manner provided herein, change its mailing address.

21. Attorney's Fees. If legal action is instituted to enforce any of the terms and conditions of this Agreement, the prevailing party shall be entitled to recover its reasonable attorneys' fees and other costs incurred from the losing party. Such attorneys' fees and costs may be included, as a portion of any judgment granted.

22. Waiver. No waiver by Licensor of any default or breach of Licensee's performance of any term, condition or covenant of this Agreement shall be deemed to be a waiver of any subsequent default or breach by Licensee of the same or any other term, condition or covenant contained in this Agreement.

23. Modification. This Agreement shall not be varied or modified in any way, except by an instrument in writing, executed by the parties hereto.

24. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of California applicable to agreements made and entirely performed therein.

25. Partial Invalidity. If any term, provision, covenant or condition of this Agreement is held by a court of competent jurisdiction to be invalid, void or unenforceable, the rest of this Agreement shall remain in full force and effect to the greatest extent permitted by law and shall in no other way be affected, impaired or invalidated.

26. Successors. This Agreement shall inure to the benefit of and be binding upon the heirs, successors, and legal representatives of the parties hereto.

27. Captions. The captions or headings of paragraphs of this Agreement are provided for convenience only, and shall not be of any force or effect in construing any provision of this Agreement.

28. Superseding Agreement. This Agreement supersedes all prior agreements between Licensor and Licensee.

29. Counterparts. This License Amendment may be executed in any number of counterpart copies, each of which shall be deemed an original, but all of which together shall constitute a single instrument. Electronically transmitted executed copies of this License shall be fully binding and effective for all purposes, whether or not originally executed documents are transmitted to the other party. Fax Signatures are to be treated the same as original signatures.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first written above.

RX. Freq. 161.565 Mhz

RX. Freq. 460.000 Mhz

RX. Freq. 465.000 Mhz

## EXHIBIT D

### Minimum Site Standards

The following are established as minimum Licensee requirements to allow all systems to operate at their design specifications with the maximum attainable reliability.

Additional requirements may be imposed dependent upon the individual case. All Site licensees will be handled on a equitable basis under these standards commensurate with their established priority. All terms and conditions of the licensee's Tower License Agreement will prevail, notwithstanding implementation of any of these standards.

1. Each transmitter at the Site must be identified with an approved and completed F.C.C. ID tag along with the name and telephone number of the person responsible for the operation of that transmitter.
2. Written notice must be given to Licensor or the Site Manager prior to the addition of any transmitters or change of existing transmitters that would affect their power output, modulation, or frequency. Control stations and inverted pairs on F.C.C. designated repeater channels will not be allowed on the Site.
3. Only F.C.C. type accepted transmitters, designed for use in high RF multi-user environment, will be allowed on the Site. MI equipment shall be installed and operated only in accordance with the authorization and approval of Licensor of the Site Manager.
4. Transmitters/Receivers will be combined/multi-coupled to the maximum extent possible, consistent with the specific system performance requirements. A one-time "buy in" cost may be incurred.
5. All systems not connected to Licensor's combining network will be installed to comply with Site standards, require Licensor's prior engineering approval and meet the following minimum requirements:

- (a) Each transmitter shall have a harmonic filter, protective isolator and band-pass cavity (BPC) which has the minimum attenuation levels listed in Table 1. The isolator shall precede the BPC in the transmit path.
- (b) Notch-type duplexers must be preceded by a BPC (table 1).
- (c) Additional filters, BPC isolators and other protection may be required to solve specific site interference problems.
- (d) Transmit power as measured at the transmitter output will not exceed 120 watts, unless preapproved by Licensor.
- (e) Double-shielded, double-braided or solid outer conductor jacketed cable will be used to connect RE equipment to antennas, protective devices and components; preferably using type N connectors, and a minimum number of adapters. Single-shielded cable and unjacketed transmission lines are prohibited.
- (f) Black nylon tie wraps and other insulated clamps or strapping shall be used to secure transmission line to towers. Metal clamps, wraplock or similar metal strapping will not be permitted.
- (g) Transmit equipment, excluding microwave equipment, shall be housed in grounded metal cabinets suitable for a high RE environment. Access doors must be in place. Open frame racks will require specific approval.
- (h) Loose wire and loose metal objects on the Tower, in the Building and on the Site are prohibited.
- (i) Every effort shall be made to protect the equipment from lightning damage. Grounding kits must be installed on all Tower coaxial cables, where the cable leaves the Tower. Lightning surge protectors will be installed on all equipment when so specified.

**TABLE I**

<b>Frequency <u>Band</u></b>	<b>Isolator Reverse <u>Attenuation</u></b>	<b>BPC Attenuation AT Frequency Removed <u>From Carrier</u></b>
25-50 MHZ	15 dB	20 dB at 500 khz
66-88 MHZ	25 dB	20 dB at 600 khz
130-175 MHZ	50 dB	25 dB at 200 khz
400-470 MHZ	50 dB	15 dB at 1 MHZ
806-906 MHZ	50 dB	20 dB at 2 MHZ
