

Lake Tahoe Storm Water Management Program Update Presentation

October 12, 2010

Department Of Transportation

Storm Water Management Program Status

- Keep Tahoe Blue, El Dorado County, Department of Transportation continues with a leadership role and positive working relationship with all Tahoe agencies in delivering the components within the current Storm Water Program and Environmental Improvement Program (EIP)
- Department is working with Lahontan and TRPA on various items within the proposed TMDL requirements and with Lahontan on their proposed BPA which might have both positive and negative impacts to the current County Storm Water Management Program:
 - Capital, Operations, and Maintenance Impacts
 - Potential Departmental Staffing Changes
 - Legal/Procedural changes
 - Financial Challenges
- Department will be working with Lahontan during the next year to develop the next National Pollution Discharge Elimination System (NPDES) Permit
