**XXIV. SEVERABILITY**

If any term or condition of this Agreement or the application thereof to any person(s) or circumstance is held invalid or unenforceable, such invalidity or unenforceability shall not affect other terms, conditions, or applications which can be given effect without the invalid term, condition, or application; to this end the terms and conditions of this Agreement are declared severable.

## Exhibit A

### SCOPE OF SERVICES

#### BACKGROUND

COUNTY is covered under the State Water Resources Control Board Water Quality Order No. 2013-0001-DWQ, National Pollutant Discharge Elimination System (NPDES) General Permit No. CAS000004 (General Permit). As a requirement of Section E.13 of the General Permit, COUNTY is required to conduct individual monitoring programs since the population exceeds 50,000 and is classified as a "Small MS4 Permittee." In accordance with Section E.13 of General Permit, participation in a regional monitoring effort approved by the Executive Officer of the Central Valley Water Board can replace some or all water monitoring obligations otherwise required. In lieu of conducting the individual monitoring required, COUNTY will participate in the Delta Regional Monitoring Program (Delta RMP). Participation in the Delta RMP will provide more useful data at a lower total cost than Small MS4 Permittees conducting numerous individual monitoring efforts.

The Sacramento/San Joaquin Delta is an important water supply for municipal, industrial and agricultural use for much of the state, and is a critical ecosystem for fish and wildlife including many rare and endangered species. The Delta RMP is a stakeholder effort controlled by a Steering Committee to provide improved Delta monitoring and data evaluation. The primary goal of the Delta RMP is to provide coordinated Delta-wide monitoring, reporting, and assessment of water quality.

ASC is a Joint Powers Agency, created on July 1, 2007, by a Joint Powers Agreement between the Bay Area Clean Water Agencies and the State Water Resources Control Board for the purpose of assisting with the efficient delivery of financial, scientific, monitoring, and information management support functions. ASC shall be responsible for implementing the program activities and serving as the treasurer for the program.

#### PURPOSE

The purpose of this Agreement is to allow COUNTY to participate in the Delta RMP in lieu of conducting the individual monitoring required under Section E.13 of the NPDES General Permit by providing an annual contribution, attending meetings, and providing collaboration with others in the Delta RMP.
