

Comments:

- 1) Traffic control to be in compliance with M.U.T.C.D., NDOT standard drawings.
- 2) NDOT and/or their representatives reserve the right to make modifications to the traffic control in the fields as necessary.
- 3) All orange construction signs to be sheeted with type x fluorescent orange retro reflective sheeting, and all black/white regulatory signs to be sheeted with high intensity retro reflective sheeting.
- 4) All construction signs, sign stands and traffic control devices to be compliant with NCHRP350 crash test standards.
- 5) Contractor to maintain 12' travel lanes at all times.
- 6) Project traffic control to be adjusted as necessary to coordinate with work in process by other contractors.
