10/9/2013

Michael Vu, Registrar of Voters
San Diego County
P.O. Box 85656
San Diego, CA 92186-5656

Dear Michael,

As you are aware, Dominion Voting Systems (“Dominion”) has been working closely with the California Secretary of State to provide a uniform update to the SSL certificates for GEMS 1.18.24 and BallotStation 4.6.4 for use in the State of California. The Dominion solution has been certified by the Secretary and State and Dominion is ready to provide this update to you at no cost. However, since your county is not currently a licensee of Dominion, we respectfully ask that you sign this letter of agreement regarding the SSL certificates updates.

1. Dominion grants to San Diego County a royalty free, perpetual, non-exclusive, non-transferrable license to use the SSL certificate update provided by Dominion for GEMS 1.18.24 and BallotStation 4.6.4, currently certified in the State of California.
2. The SSL certificate update provided by Dominion is provided AS IS without representation or warranty of any kind. Dominion disclaims all representations and warranties, whether written, oral, express, implied or statutory, including any warranty of merchantability or fitness for a particular purpose and any warranty based on a course of dealing, course of performance or usage of trade.
3. Except in the case of Dominion’s willful misconduct or gross negligence, San Diego County shall indemnify, defend, and hold harmless Dominion and its officers, directors, agents, employees, and owners from and against any and all demands, claims, losses, and liabilities resulting from the use of the SSL Certificate update.

Dominion is pleased to have this opportunity to work with San Diego County as part of the SSL certificate update. Please feel free to contact Sheree Noell at 510-610-6634 if you have any further questions.

Sincerely,

Waldeep Singh
Vice President of Customer Relations
