Dear Kim Dawson,

I write in support for the consideration of Resolution No. 069-2021 within the Board of Supervisors of El Dorado County, which calls for the removal of mask mandate rules imposed on our children within our local schools.

I believe a free society allows its citizens to make their own decisions over what risks they are willing to run and what precautions they are willing to take according to their own circumstances to protect their health. In an epidemic, individuals' assessments of risk might convince them to avoid crowded theaters or restaurants, wash their hands more frequently, avoid handshakes, or wear masks. These acts don't require force and don't make demands on others. They are a matter of individual judgment and choice.

Resolution No. 069-2021 emboldens this principle, to allow the citizens of a free society to have the option to determine what is best for their children's health. I support the efforts of the El Dorado County Board of Supervisors to ensure the children in our communities' schools are allowed the choice to make their own best judgements.

Should you have any questions, please contact Kelsey Gaudette in my office at (202) 225-2511.

Sincerely,

A handwritten signature in blue ink that reads "Tom McClintock".

Board of Supervisors,

I am emailing because I am concerned about the upcoming school year. I fully support the resolution that will allow masks to be optional for all K-12. This important health decision should be left in the hands of the parents and families. Please allow all of us concerned parents to choose what is best for our children. Masks should be optional regardless of vaccination status. Especially since kids are the lowest risk population for COVID complications/death and the vaccine is still an EAU, not FDA approved.

Thank you for your time,
