MY OBSERVATION OR INVOLVEMENT IN THIS MATTER WAS AS FOLLOWS:

Sometime between 4/16/09 and 4/21/09, two (2) counterfeit \$100 bills were accepted by an unknown jail employee as money from an unknown inmate subject.

On 4/23/09 I deposited all of the money at Bank of America that had been received at the jail as Inmate Trust money. There were four (4) one hundred dollar bills in the deposit. Two (2) of the bills were rejected by the automatic counting machine at the merchant window.

Upon examining the bills the merchant teller, Ginny, found the watermark on the bills appeared to be Lincoln and should be Franklin; the two bills had identical serial numbers and the paper had the appearance of being washed.

The teller completed a Countefeit Note Report and the bills are being sent to the Secret Service. A copy of the report is attached.
