Dear Supervisors,

I am writing to express interest in the matter of 18-0282 regarding the ideal of providing assistance to help with special interests persons with various disabilities. I watched with interest the 2 speakers at a recent BOS hearing who were mentioning the troubles involved with taking care of family members with mental disabilities. Our heart goes out to people who are trying to do what is right with family, and would like to think there is more that we can do to help. Perhaps this is something that we all can get behind? If the county could see to grant certain relief of fees (perhaps the TIM Fee) for those homes providing necessary amenities to assist with the care of these residents, then we will provide the housing where possible to include those amenities. I would very much like to see us working together toward this cause.

Sincerely

3/19/2018
