

*El Dorado County*  
*Agriculture, Weights & Measures Department*  
*Interoffice Memorandum*

---

**DATE:** April 15, 2014  
**TO:** Tom Dougherty  
**FROM:** LeeAnne Mila, Deputy Agricultural Commissioner, Sealer of Weights & Measures  
**SUBJECT:** Appeal S11-0009/PD11-0005 Green Valley Nursery

---

This memo is in reference to the appeal of special use permit and planned development application S11-0009/PD11-0005 for Green Valley Nursery. One of our inspectors is usually at the nursery on at least a monthly basis conducting routine inspections for our various programs (Nursery program, Pest Exclusion program) and we have never seen any pesticide or fertilizer movement into the wetlands.

The strawberry grower is required to report any pesticide applications, in the strawberry area, to our department. There have been no pesticides applied to the strawberry growing area within the last 3 years. They are aware of the wetlands as a sensitive area.
