As a resident of the Bass Lake area I am writing to express my strong support to the proposed change of general plan to APN 115-400-12, at 3240 Bass Lake Road, which contains Bass lake and is owned by the El Dorado Irrigation District (EID). I believe that the change from RF to RH, allowing for sports fields, sports complexes and recreational parks would greatly improve the access to parks in the immediate area. Currently our neighborhood is woefully underserved with such recreational areas, and the neighborhood and region would greatly benefit from the immediate construction of such facilities. I would hope any planning process would work to incorporate the beauty of the current natural open space, mitigating any impact on surrounding communities and direct resulting traffic onto Bass Lake Road in such a way that the surrounding neighborhoods would be minimally impacted.

I am certain that the neighborhoods and the residents of Serrano, Green Springs Ranch and the Bass Lake area would strongly support a well thought out plan that allows for both open space and park/regional playing fields, dog park, playground use, etc. As such, I urge you to approve the proposed change to the general plan and zoning, and bring high quality parks and recreation facilities to the area, funding construction of such facilities as soon as possible.

Best Regards,
Ken Cantrell
