It is my understanding that the applicant has requested to address the Commission about the proposed cell sites at today's meeting. My understanding was that no public comment was to be allowed, and if the applicant is able to address the Commission, it seems contrary to the purpose of the meeting, and unfair to allow comments from the applicant and not from the public.

Please stick to the agenda as previously scheduled, and if comments are to be heard by the Commission allow the public to have time to redress the issues which have been presented before. The appearance of impropriety may be of concern to many of the people who have taken an interest in fighting against these cell sites!

Thank you for your consideration.

Bruce Person
