PROGRAM INTRODUCTION AND OBJECTIVES

This is a commitment by the undersigned to advance the following conceptual agreement in the mutual interest of improving public safety:

1. The number of adult offenders returning to the County of El Dorado from state prison in calendar year 2006 was approximately 128. Many of these returning offenders were in need of improved programs and services in order to reintegrate successfully into their communities. The number of adult offenders returning to the County during calendar year 2007 will likely be the same or more. The recidivism rate for County offenders returning to prison with new prison terms is 15% and parole revocations is 47% during the first year of parole (*CDCD Facts*). These recidivists pass through the El Dorado County Jail and contribute to jail crowding as well.
2. There is a current need to increase the level of programs and services within the County and within the state prisons housing the returning offenders including guidance, direction, training, housing, employment, intervention and preventative counseling, transportation, and supervision to enable adult offenders to be successful in their reentry into the communities of the County.
3. The CDCR and the El Dorado County Sheriff's Office shall work together toward the following goals:

- a) Improve the reintegration of returning adult offenders from prison and from jail to the communities in the County, reducing crime and recidivism.
 - b) Improve the coordination of current resources, services and programs to cause more effective and efficient deliveries of human services to the returning offenders.
 - c) Improve the intensity and quality of planning, placement and supervision of parolees in order to ensure offender accountability.
 - d) Increase, where necessary, services and programs, including but not limited to needs and risk assessments, pre-employment training, employment placement, substance abuse prevention and intervention, group and individual counseling, interim and long term housing, transportation services to work and to prevention programs, mental health counseling, treatment and related support, and levels of supervision or surveillance.
4. The CDCR, the El Dorado County Sheriff's Office and El Dorado County Administration shall jointly plan for a state constructed SRPF in conjunction with a new EL Dorado County Jail to house adult offenders. The facility should be designed and constructed to:
- a) House offenders with a medium to high level or risk of recidivism offender;
 - b) Provide a maximum of 500 beds, both celled and dormitory style housing;
 - c) Support ample programming space for greatly improved reentry and reintegration services and programs;
 - d) Provide administration and office support space for various critical intervention needs of the housed offenders;
 - e) Provide space for medical, dental and psychiatric treatment in compliance with court-mandated standards;
 - f) Share infrastructure costs and services to be determined at a later date by mutual agreement.
5. The CDCR will be responsible for securing the necessary legislative authority and funding associated with the planning, design and construction of such a facility as well as for resources necessary to provide enhanced state supervision to parolees in the County.
6. This Agreement of Cooperation is not intended to be legally binding or to impose legal obligations on either party.
