Dear Board Members,

This proposed action will change the environment at the County Government Center. I don't believe that the changes have been adequately analyzed.

A number of elderly citizens visit Building B each year. I am concerned that some of these citizens will not feel comfortable visiting the Tax Collector, the Assessor, or other offices in Building B.

I am also concerned about how comfortable the county employees will be with the proposed significant change to the environment in and around Building B. Further, I believe that the proposed action will exacerbate the recruitment and retention problems the County already has.

I hope during today's meeting, the County's plan for additional security will be discussed and explained.
