KOHLER GENERATOR SALES - SERVICE - PARTS - RENTALS

To learn more, visit our website at www.BCEW.com

REFERENCE: El Dorado County – Shingle Springs Project
EMERGENCY GENERATOR SYSTEM
BCEW # 116770

Bay City Electric Works is pleased to offer the following Kohler generator system for your use on the referenced project. This proposal is in accordance with your verbal request. No written details, plans, or specifications were provided. The following clarifications, technical exceptions and/or exclusions are noted:

- Delivery and off-loading to job-site is included. Setting in place on concrete pad and installation is not included. Spring type vibration isolators are excluded.
- No automatic transfer switch included.
- No LP fuel tank included.
- No permits of any kind included.
- Kohler generators include integral vibration isolation that eliminates the need for under unit spring type vibration isolators. The spring isolators increase the height of the generator, allow rodent access through the stub-up area and increase the sound of the package. Our seismically certified models do not require the addition of spring isolators for their certification.

Major system components include:

One (1) UL2200 Listed Kohler model KG80 LP powered generator set, rated for standby duty at 77 KW, .8 PF, 96 KVA, 120/208 volt, 3 phase, 4 wire, 60 Hertz, 1800 RPM, outdoor in weatherproof sound attenuated enclosure.

KG80-CP1 KG80 Generator Set

Includes the following:

GM105406-GA1	KG80, 4PX, 6.2L Turbo
GM107120-AA1	Decal, EPA
222661	Nameplate Rating, Standby 130 Degree
GM20747-KA4	Decal, UL2200/cUL Genset Listing
333700	Voltage, 60Hz, 120/208V, 3Ph, 4W, 0.8PF

On-Site Start-Up & Commissioning
On-Site Testing with Available Building Load
On-Site Owner Training

Generator price is\$32,366.00 (Tax Not Included)

Jobsite inspection, initial startup, and initiation of warranty, by a Bay City Electric Works field technician during normal working hours Monday through Friday 7:00 a.m. to 4:00 p.m. Testing will utilize building load unless the specification states otherwise. Fuel for testing is excluded. Any jobsite orientation and training of operating personnel to be done at the time of startup.

13625 Danielson Street, Poway, CA 92064 (HQ)
860 Lawson Street, City of Industry, CA 91748
322 Lindbergh Avenue, Livermore, CA 94551

REFERENCE:
BCEW # 116770
3 of 5

Kohler limited generator warranty, effective from date of startup, for:
1 year or 2000 hours (whichever occurs first) as published in Kohler Brochure.

Generator Price: FOB Factory with freight allowed to your jobsite. Offloading and placement of equipment is excluded. All deliveries are Monday through Friday 7:00 a.m. to 4:00 p.m. Deliveries outside the normal business hours will be invoiced as necessary.

AQMD/APCD Permit is not included. To be provided by others. Contact ProActive Consulting Group at 714-893-7900 for Permit application processing information and pricing.

ADDERS/DEDUCTS:

If sound attaneuated enclosure is not required and a standard weather-protectiove enclosure is adequate, deduct will be (\$500.00) (Tax Not Included)

Quotation Notes:

1. Applicable taxes have not been included.
2. Air quality permit fees and compliance are excluded. Local air quality authorities may require a health risk study or environmental quality assessment. The cost for a health risk study is excluded.
3. Any additional equipment required as a result of the Air Quality Management District (AQMD or APCD) permit application will be quoted separately. Air quality requirements are ever changing and vary based on jobsite location. BCEW is quoting the latest Tier compliant generators to meet State and Federal regulations unless otherwise noted. It is the customer or end users responsibility to obtain all permits related to the installation and operation of the equipment quoted herein. All permits must be obtained prior to installation of the equipment.
4. Some local AHJ's will require field inspections, additional testing, interconnection with a Fire Alarm system or BMS, or verifying functionality on certain components/alarms/monitoring. We are bidding to the plans and specifications provided and cannot cover any and all potential testing that may be requested by AHJ's. We do our best to be an expert on all local requirements but we have a huge territory and requirements are ever changing. We are bidding to a design spec for a project awarded based on pricing. It is the responsibility of the Consulting/Specifying Engineer to provide the required information to bid the project properly. Typically the testing/inspection does not require attendance by a BCEW technician but in certain instances it does. Please contact us with the specific requirements in writing that apply to your project (from your approved fire permit, County HazMat permit or your inspection corrections) once you have them and our Service Department can quote it accordingly.

REFERENCE:
BCEW # 116770
4 of 5

5. Quotation will be held firm for 30 days. This quote may be modified and/or rescinded by BCEW at its sole discretion unless the quote is accepted before the expiration date.
6. On-site installation work is excluded.
7. Fuel, initial fuel fill and fuel for testing is excluded.
8. No special lugs included in our quotes unless specifically identified on our proposal. You will receive the standard lugs for the provided breakers.

Terms and Conditions:

1. Terms of payment are net 30 days from factory shipment, upon approval of credit department.
2. Materials will be invoiced date of shipment from factory.
3. Acceptance of purchase order is based on materials quoted.
4. 1.5% per month on unpaid balance will be assessed if not paid within terms.
5. Terms for retention and liquidated damages will not be accepted.
6. The following charges may be assessed for cancellation of any order:
 - a. 10% of total order price if cancelled after we have provided submittals but prior to release for manufacture.
 - b. 25% of total order price if cancelled after release for manufacture, or if the equipment is already on order with the factory (Kohler paralleling switchgear is on order as soon as Submittals are requested).
 - c. 50% of total order price if cancelled less than 60 days prior to the scheduled shipment date.
 - d. 100% of total order price if cancelled after the equipment has shipped from the manufacturing plant.

Lead Times:

1. Most submittals can typically be provided within 10 business days from receipt of your written hold for Submittal approval (HFSA) Purchase Order. Custom drawings take 15-20 business days minimum. Paralleling Switchgear Submittals are a minimum of 6-8 weeks.
2. Current factory lead-time for the generator is 10 - 12 weeks from written release for production.

We appreciate this opportunity to offer our equipment for your consideration. Please call if you have any questions or if I can help in any way. Bay City Electric Works wants to be your Generator System Supplier.

Best Regards,
