# Taxpayers' Association of El Dorado County

**DATE:** September 8, 2021  
**TO:** El Dorado County Board of Supervisors  
**FROM:** Andy Nevis, President, Taxpayers Association of El Dorado County  
**RE:** Appreciation for Organizations Assisting with Caldor Fire Response

---

The Taxpayers Association of El Dorado County would like to publicly thank and acknowledge all the churches, service clubs, community centers, and other organizations that have responded to the impact of the Caldor Fire.

The past few weeks have been some of the most challenging in El Dorado County's history. We have experienced fear, uncertainty, and devastating heartbreak and loss for too many. Yet in the midst of the disaster, we have been reminded of our community's resilience and the importance of the nonprofit organizations that make our county such a great place to live.

Public agencies, businesses, and individuals cannot respond to a disaster of this magnitude alone. From churches and community centers that put everything on hold to provide shelter and assistance in their buildings, to groups that handed out gift cards and food to those in need, to volunteers who continued to help others even as their own homes were destroyed or threatened, to all those organization members and supporters who stepped up to love and comfort their displaced neighbors, El Dorado County nonprofits rose to the occasion. Such a compassionate response would not have been possible without them.

Even when the flames from the Caldor Fire are finally extinguished, we know there will still be much work before us to help those who have lost their precious homes and possessions. We hope that the county will support and find ways to recognize the hard work of organizations that have provided assistance. We know that they will continue to do so as long as there is a need.

County of El Dorado Clerk of the Board &lt;edc.cob@edcgov.us&gt;

I understand that wildfire evacuee shelters had to be consolidated. Being moved to a shelter in El Dorado Hills is more hardship. The government offices that I need are in Placerville as is my job. Our mail goes to Diamond Springs. Are you relocating evacuees away from government services so you don't have to deal with us?

We need RV and trailer parking with utility hook ups that is affordable. We have obtained an RV to move from Nevada when Highway 50 opens. We do not want to live in the shelter or their parking lot or Walmart's parking lot either. It will be a long time before our burned out house and property will be authorized for repopulation  
We need a place for our RV in the meantime
