Dear Planning Commissioners:

I am writing to voice my concerns over the 250 unit apartment complex being proposed for the El Dorado Hills Town Center. I don't feel the impact of this project has been adequately analysed. Please vote to require an Environmental Impact Report.

The EDH Town Center is already very congested throughout the day and extremely congested with traffic during special events. An influx of kids would be slated for Oak Meadow Elementary which is already impacted and Oak Ridge is at or very near capacity. This project would also have a very negative aesthetic impact, forever changing the inherent beauty of our town. Developers have very little interest in the well being and quality of life of current residents and the impact their projects have. El Dorado Hills is a semi-rural suburb and THAT is why people choose to live here and love living here.

Developers want to change to whole nature of OUR community. Ron Mikulako has been a huge disappointment to our community as he has made it clear in town meetings that he is under developers' influence, even though his campaign platform while he was running stated otherwise. Many residents feel he does not care that his constituents have urged him to vote against re-zoning measures in EDH that would lead to more high density housing projects being approved. It is very frustrating that we cannot count on him or trust him and have to make huge efforts and take other measures to get our voices heard.

Thank you,

Laurel Moores

El Dorado Hills resident

Attention Mel Pabalinas,

We want to see a thorough Environmental Impact Report for this project. It needs further study as it will be at least an eyesore, at best a source of traffic congestion.
