RE: Design Review Revision DR90-0034-R/Recycling Center
Valero Fuel Station

We are the Landlord's for the Goldorado Shopping Center. The Valero Fuel Station is located at the entrance to our shopping center.

We are strongly opposed to having a recycling center at the Valero Fuel Station. There is already a long standing, full service recycling center behind the CVS store at the Goldorado Shopping Center. There should be no need for an additional recycling center. Also, having a recycling center located at the entrance of the shopping center will be very unsightly.

Should you have any questions, please give me a call.

Sincerely,

BEST PROPERTIES
