To: BOS-Clerk of the Board
Subject: TCH

LATE DISTRIBUTION

DATE 3/19/2024

Good Morning Board,

Does the public deserve to know the outcome of the DOJ investigation into the TCH? I think so. I request that you move this from consent and talk about it and revord the vote. We need to know if it the allegations of blackmail are true? Is our county being forced to fund TCH to save face for Newsom, in order to recieve funds for the navigation center?

100% for sure ...no one lives, to this day, in the Bear's Den Inn. Lots of workers had to move off the hill when they were evicted for nothing...because nothing has ever been done there. People approached my husband, who is not a contractor, to do work at the Bear's Den last year. He said no, of course. What kind of an operation is this? It is obvious.

When all this began to be exposed the local paper shut down its online comments suddenly. This wasn't a coincidence. The players in this drama, especially TRPA, have a lot to hide.

EDC needs to wipe its hands of this organization immediatly. Use someone else to do homeless intake.

The information contained in the media reports is stomach turning. Please, search it out and read it.
