Agriculture Department recommending Chairman be authorized to sign retroactive Agreement # 06-0484 with the California Department of Food and Agriculture (CDFA) and El Dorado County compensating the county in the amount of \$90,292 for the term of July 1, 2006 through June 30, 2007 for the placement, survey, inspection, and delimitation of Glassy-winged Sharpshooter in El Dorado County.

RECOMMENDED ACTION: Approve

FUNDING: State

Background: The Department of Agriculture, Weights & Measures under this agreement is reimbursed by CDFA for implementing an intergovernmental, coordinated state and community -wide plan to provide detection and delimitation of the glassy-winged sharpshooter (GWSS) in El Dorado County and suppress or eradicate any population as rapidly as possible. The GWSS is a very serious pest that transmits Pierce's Disease to grape vines. Pierce's disease has the potential to completely destroy El Dorado County's multimillion dollar wine grape industry. Under the terms of this agreement, El Dorado County Agricultural Department will act as the lead agency for the Pierce Disease Control Program (PDCP) and CDFA will work in cooperation with the State PDCP Science Advisory Panel, officials in affected counties, and other interested parties in implementing this work plan. The CDFA will provide biological control program guidance and support to the county to implement this work plan.

Reason for Delay: Department did not receive the Agreement from CDFA until September 12, 2006

Fiscal Impact/Change to Net County Cost: The funding for this program is included in the adopted FY 2006/2007 budget. This contract will not change the Department's net county cost.

Action to be taken following Board approval:

- 1) Board Chairman signs 1st and additional single page of CDFA Agreement #06-0484.
- 2) Board Clerk provides Department one (1) copy of Minute Order, as required by CDFA.
- 3) Once a fully-executed original Agreement #06-0484 is received from CDFA, Department will forward it to the Board Clerk for your files.
