RE: J-6 Pre-Application for "The Town & Country Village El Dorado"  
Bass Lake Road at Highway 50

Mr. Chairman and Members:

Thank you for this opportunity to propose our J-6 Pre-Application for "The Town & Country Village El Dorado" located at the base of Base Lake Road, fronting Highway 50 on the south and bisected by the new Country Club Drive to the north of the project site.

We have created "The Town & Country Village El Dorado" after years of study and consideration of the history, topography and the overall environment of this site owned by the Mohanna family and the ASHA LLC. Over the last four decades the Mohanna family, long time steward of these and other parcels of land in Bass Lake Hills, has witnessed the tremendous growth of El Dorado Hills and most recently, the Bass Lake Hills area.

We held several community-based planning and design charrettes to listen to views and ideas of our neighbors and have presented the conceptual plan to the El Dorado Hills Area Planning Advisory Committee (EHAPCA) and the Bridlewood Homeowners Association. We have invited individual community members to the Mohanna Ranch for small group meetings to delve into the details, review the history and envision a reconnection of the historic wagon trail of the 1860's that crosses the Mohanna properties. In short, we have sought the advice and guidance of our neighbors and have created the concept of a "Village Center" as a "new chapter" for the Bass Lake Hills Specific Plan:

1123 J Street - 3<sup>rd</sup> Floor Library, Sacramento, California 95814  
Office 916.447.8982 - Facsimile 916.739.1417 - pane@cwo.com

**PA21-0013**

to provide lodging and shopping for families and conferencing venues to display the gold discovery history, the El Dorado County vintners' fabulous wines and the Apple Hill growers' delicious foods and beverages. In addition, we have proposed a museum of El Dorado County history to explore these agricultural products as well as the past and future of the timber, logging and milling industry.

The Town & Country Village El Dorado seeks to update the Bass Lake Hills Specific Plan (BLHSP) with a new chapter to the modern standards and policies of the El Dorado County General Plan and its various changes up to and including the 2019 amendments.

To accomplish this, it is necessary to amend the County General Plan by including the subject properties within the surrounding Community Region and amend the BLHSP to provide for the development of a mixed-use project that will become the "Village Center" of Bass Lake Hills, an element that is missing from the original BLHSP.

The Town & Country Village El Dorado seeks to fulfill your General Plan:

- 1) Land Use Goal 2.1 by creating a new sustainable community while curtailing urban sprawl with mixed and balanced land uses that promote alternative transportation systems;
- 2) Objective 2.3.1 by retaining the distinct topographical features and conserve and enhance the native vegetation of the project site while achieving your General Plan Measure LU-Q direction by "promoting infill development, linking land use, housing, air quality, and transportation circulation strategies that support development within existing communities, reducing vehicle miles traveled, increase energy efficiency, and creating affordable housing;" and
- 3) Objective 10.1.6 by "capturing a greater share of retail and tourist dollars within the County; providing opportunities to establish new tourist related commercial operations while promoting and maintaining existing tourist commercial operations."

We look forward to your input and guidance and continuing the public outreach and dialogue with our neighbors and community members about their dreams and vision for the future of El Dorado Hills, The Town & Country Village El Dorado and the entire County of El Dorado.

Respectfully,

JOSH PANE

The Town & Country Village El Dorado  
Bass Lake Road

The Town & Country Village El Dorado  
El Dorado Hills, California  
El Dorado County Board of Supervisor's J 6 Application  
July 7, 2021

Over the last four decades the Mohanna family, long time steward of these and other parcels of land in Bass Lake Hills, has witnessed the tremendous growth of El Dorado Hills and most recently the Bass Lake Hills area, along with the build out of some of the roadway and other infrastructure needed to complete the most recent subdivisions of Hawk View, Bell Woods, Bell Ranch and Hollow Oak. One major piece of infrastructure, Country Club Drive, the new urban collector road has been completed and bisects the subject site. Since the Bass Lake Hills Specific Plan was adopted in 1995 there have been many changes to the various local ordinances, the County's General Plan, regional and state laws and to the surrounding neighborhoods.

In light of these many changes the Mohanna Family Development Company and Panfino General Partners (the "Proponents") are preparing to submit a formal application to create a mixed use of resort, hotel lodging, first class family gathering wedding reception, conferencing venues, residential, commercial, medical services, and neighborhood-serving retail to be named The Town & Country Village El Dorado. The combination of both lodging and reception/family gathering spaces would become the first of its kind for the West Slope neighborhoods and a destination amenity for El Dorado County. Ideally located along the eastside of Bass Lake Road and bisected by Country Club Drive, taking advantage of the easy access to Highway 50 and the existing traffic on Bass Lake Road.

The Town & Country Village El Dorado seeks to update the Bass Lake Hills Specific Plan (BLHSP) with a “new chapter” to the modern standards and policies of the El Dorado County General Plan and its various changes up to and including the 2019 amendments.

To accomplish this it is necessary to amend the County General Plan by including the property within the surrounding Community Region and amending the Bass Lake Hills Specific Plan (“BLHSP”) to provide a new chapter for the development of The Town & Country Village El Dorado as a mixed use project which will become the effective “Village Center” of the Bass Lake Hills area, an element that is missing from the original BLHSP.

The Mohanna family is uniquely qualified to create such a project as having been in the hospitality business since 1982 with major wedding and official gathering venues in Sacramento at the Capital Plaza Ballrooms (the former historic Odd Fellows Temple circa 1853) and The Grand Ballroom, both accommodating gatherings of 300 to 2000 people. More recently, the family has been involved in the planning and construction of unique reasonably priced housing. So with the Mohanna family history and experience, the Proponent team is uniquely qualified and positioned to establish a beautiful family gathering, wedding and conferencing venue in El Dorado Hills, together with housing that will be attainable by the many employees the project will attract.

The lodging and venue spaces will be situated around the existing beautiful oak grove to be preserved at the southwest corner of the site, as the natural center of activity with ample room for canopy growth for the next hundred years, setting it as a natural center piece for weddings, conferences and family gatherings. The hotels will flank the oak grove and will be planned and constructed within the natural slopes of the terrain. In fact the entire Village will be planned and constructed along the natural landscape and terraced up or down according to the topography of the land.

A key feature of the existing BLHSP is an emphasis on the connectivity of bike, hiking and equestrian pathways and trails, utilizing the open spaces and arterial buffers. The Town & Country Village El Dorado plan connects the proposed project to the rest of the BLHSP offering neighborhood services and retail and eloquently provides direct and enhanced access to the trails and open space to residents and visitors of the Village. The Proponents are committed to the preservation to the Historic Wagon Trail on the property and intend to incorporate it into the project design. Further it is the intent to erect a truss/steel bridge across Bass Lake Road for hiking, biking and equestrian use, providing a connection of the properties east and west of Bass Lake Road.

The proposed Town & Country Village lodging and reception facilities and the two restaurants will host a number of neighborhood services catering to the needs of the greater community and the parishioners of Holy Trinity Church on the top of the hill, the Faith Episcopal Church and Foothill Community Church on the Cameron Park side of the hill and the Capitol Korean Presbyterian Church on Tong Road for weddings, family gatherings, and community events and conferences. According to both Chambers of Commerce there is a tremendous demand for lodging and an event venue of this nature. Therefore, our facilities would become a grand addition, complementing the existing wedding and gathering venues of the wine and apple growers' properties with the expanded capacity for multiple overnight stays in the crown of California Gold Country. It will be an ideal location for local and regional conferences of El Dorado County agriculture; members of the Apple Hill Growers Association and the El Dorado Wine Grape Growers Association while expanding the existing robust tourism marketplace.

The Town & Country Village El Dorado project, is surrounded and sandwiched between urbanized Serrano (El Dorado Hills Specific Plan) and Cameron Park and is an ideal opportunity for infill - more dense housing, recreational opportunities and resort - lodging - reception facilities while still maintaining a separation between communities.

The type of land uses proposed will fulfill many of the County's General Plan policies as set forth below.

GOAL 2.1: LAND USE, which reads:

*"Protection and conservation of existing communities and rural centers; creation of new sustainable communities; curtailment of urban/suburban sprawl; location and intensity of future development consistent with the availability of adequate infrastructure; and mixed and balanced uses that promote use of alternative transportation systems."*

This project will result in, not only, providing for a sustainable community within itself, but also, help the Bass Lake Hills area as a whole pull together as a community, providing local serving retail and gathering areas. A mixed use project as proposed with neighborhood serving uses and an adjacent park and ride facility will have a measurable benefit to the vehicle miles traveled within the area. Public services are readily available in the area and the site enjoys excellent street access, which would be very underutilized without an amendment and a new chapter to the BLHSP.

OBJECTIVE 2.3.1: TOPOGRAPHY AND NATIVE VEGETATION which reads:

*"Provide for the retention of distinct topographical features and conservation of the native vegetation of the County."*

This project will be designed to fit into the natural topography of the land and avoid the natural features such as wetlands and oak trees that will be incorporated as features of the project.

GENERAL PLAN MEASURE LU-Q (Amended August 2019) which reads:

*"Promote Infill Development: The program shall be linked to land use, housing, air quality, transportation and circulation strategies that support development within existing communities, reduce vehicle miles traveled, increase energy efficiency, and*

encourage the development of affordable housing. The program shall include, but not be limited to:

a) Adopt criteria to be used within existing communities with developed areas currently capable of being served by public water, recycled water, and public or private sewer;

b) Provide incentives for residential and commercial infill development including financial incentives for pedestrian-oriented and transit-friendly design features;

c) Amend the zoning code to include a new Traditional Neighborhood Design zone within Commercial and Multi-Family Land Uses;

d) Support medium and high-density residential or mixed use development along commercial and transportation corridors;

e) Develop and utilize approved standard plan types (i.e. zero-lot line, duplex with carriage house units over garage, z-lot, bungalow, etc.) to streamline the approval process for infill projects. Standard plan (s) shall include various housing and commercial types and styles. Standard plan(s) approved as part of a project shall be compatible with neighboring residential or commercial district patterns for which the development is located; and

f) Develop or update, as considered necessary, applicable community plans, specific plans and design guidelines to incorporate pedestrian-oriented, transit-friendly, and or energy efficient configurations design as primary goals."

The proposed project is consistent with each of these Measure LU-Q policies by linking land use, housing; both units for "downsizing" local residents, and units affordable for the employees with the project, air quality, transportation and circulation strategies, reduce vehicle miles traveled for both the surrounding neighbors and the new residents of Town & Country Village in an energy efficient manner.

OBJECTIVE 10.1.6, CAPTURE OF RETAIL AND TOURISM DOLLARS,  
which reads:

*“Capture a greater share of retail and tourist dollars within the County by providing opportunities to establish new tourist related commercial operations while promoting and maintaining existing tourist commercial operations.”*

The project creates the opportunity for lodging with a unique character to attract travelers visiting Apple Hill, El Dorado Wineries and the Gold Country in general. The Town & Country Village with its unique character will become a destination location unlike any other in the County or surrounding communities.

The project meets the criteria for initiating a General Plan and specific plan amendment, as required by Policy J-6, as it is consistent with goals and objectives of the General Plan. Public infrastructure is readily available to the site without concern of impact to existing or approved development. The project will actually bring in infrastructure that will benefit the surrounding properties within the BLHSP.

Further, the project meets most of the stated goals and objectives in Policy J-6. The project will bring employment opportunities at the resort, hotels, conference center and other commercial facilities planned in the project area. The project is planned to support higher density development including attached and clustered housing to make possible more affordable housing opportunities, including housing for employees working within the project area.

Thank you for this opportunity to present our J-6 conceptual plan of The Town & Country Village El Dorado. We look forward to continuing the public engagement as we harmoniously gather the best ideas to make The Town & Country Village El Dorado the premier resort living location, family gathering venues and the ideal destination for the West Slope.

**The Ahwahnee Hotel**

***Precedent Studies***  
*Existing Hotels and Lodgings*

Location: Bass Lake Road, El Dorado Hills, CA  
Building Type: Hospitality, Retail, Public Space

Project Status: Concept Development

A large portion of the initial conception entailed precedent studies, gauging various qualities of materiality, space planning and overall characteristics in deciding the intentions of the Town and Country Village, El Dorado site.

From a historic hotel in Yosemite National Park to a relatively modern Olympic Valley and North Star complexes, a quality of timelessness was sought in the precedents. An additional commonality, regardless of the year of completion for the precedents, was the material choices of the hotels which were predominantly masonry and heavy timber as a reflection of the surrounding natural environments.

Ultimately, the Ahwahnee to the right was decided as the primary precedent, but in the design of the El Dorado complex, hidden elements of the others would begin emerging...
