RE: Cameron Park Rotary Community Needs Assessment

In July 2013, the Cameron Park Rotary Club commissioned a comprehensive community needs assessment project for the West Slope. The purpose of this assessment, among other reasons, was to create a detailed repository of information that community service organizations and government agencies can reference to understand the “big picture” of the needs of all populations on the West Slope. The assessment team, led by former El Dorado County Supervisors Bob Dorr, met with several County departments, including the CAO office, as part of the assessment and the process seemed thorough, comprehensive and well-planned.

The assessment is now complete, including the prioritized needs of the community, the existing resources to meet those needs, and recommendations for action. The Needs Assessment Executive Report is attached for your review, as well as the entire report. The report is also available on the Cameron Park Rotary website at cameronparkrotary.org.

The assessment team has requested a time to review the report with the Board and the public at a special workshop. With the Chair’s direction, we have scheduled the presentation and discussion for Monday, July 28, 2014 at 2:00 p.m. With the Rotary representatives, we will invite representatives from all organizations that participated in the assessment and other interested organizations and stakeholders.

Thank you for your interest. This should be an informative presentation.
