To the El Dorado County Board of Supervisors,

I am writing in regards to the Mental Health Commission in South Lake Tahoe. We have traditionally had 5 seats on the commission and want to continue with that same number of seats. It is important that we have this representation for our community. Please do not take our voice away – we want to retain our 5 seats. Several of us had emailed you on this issue in the past, but somehow those emails have been “lost”. So we are asking again that we may at least keep our current 5 seats on the Mental Health Commission.

Thank you,

Joan Wilson
