CCUP19-0005 Hearing on 1-26-2023 - Public comment

R Vosper <robv779@gmail.com>

Wed 1/25/2023 10:27 PM

To: Planning Department <planning@edcgov.us>

You don't often get email from robv779@gmail.com. [Learn why this is important](#)

After reading Staff recommendations for denial, and without getting into whether medical marijuana offers benefits or potential new medical health issues, Planning needs to be aware of:

Despite no planning approvals being issued to date, MMCA is currently advertising on Google Maps that they are open for business.

The MMCA is displaying at least two vinyl banners/signage at the yet to be approved location on Alhambra...which may violate EDC Ordinances - If there is no planning approval...so how could the Planning Dept review/approve signage?

BTW - the signage is clearly visible in the MMCA presentation photos - already submitted to the Planning Commission; it is clearly visible on advertising at Google Maps; and I personally observed it on Jan 25th...perhaps.... Staff needs to conduct a site visit and take Code Enforcement with them?
