

June 5, 2016.

Dear Brian:

The Placerville City Pool opened May 28, and the happy swimmers are back, enjoying our beautiful city pool. Your meetings this week, on June 7 and 9, conflict with lap swimming, so please accept my letter as a reminder of the importance of this City/County asset. We have a variety of new swimmers this year: folks coming off injuries who ^{are} getting back into exercise, newbies who just 'found us', kiddies anxious to fill those hot summer days, and of course all the regulars. If you need a smile, just drive by the pool - you'll hear happy children, ^{see} swimmers of all levels, plus people in the park next door enjoying food and goodies purchased in our county for their family events.

Please consider the importance of the Placerville City Pool as you discuss, deliberate and vote on funding the Placerville City Pool in your finalized budget and expenditures.

I'm hoping to see you at the pool!

Sincerely,

Beth Fellman
