The Quantum Care Hospital I understand is up for approval to start construction. I cannot believe you would allow this to start before there is a traffic light and the road repairs/widening at White Rock and Carson Crossing! I am told no new traffic study was done on the project to pass the revisions the developer submitted. This is 64000 sq feet plus 4000 sq feet of a medical center! The traffic will not be accommodated on the current road! White Rock is not able to handle the traffic once its built, not to mention the construction traffic.

Please require a new traffic study and/or that the required widening and traffic signals are provided for immediately.

I have sent previous emails with no response as this hearing was postponed from original date. I am assuming they were received. Or maybe ignored?

Best Regards,

Laura M. Keir
