Purpose: The following outlines the proposed use of a one-time, \$55,000.00 contribution from the County of El Dorado ("County") to El Dorado County Water Agency (EDCWA) pursuant to a funding agreement to be entered into between the County and EDCWA. The County's contribution is to be used by EDCWA to identify, and assist with, the implementation of water savings project(s) by non-County, public facilities. The purpose of said water savings project(s) will be to prevent the waste of water in existing irrigated landscapes, consistent with the Model Water Efficient Landscape Ordinance (MWEL0), and/or to prevent the waste of water in water systems (indoor or outdoor) that are outdated and/or in need of repair or replacement in order to achieve a water savings of at least 9 acre-feet per year.

The following describes the project-level approach for achieving and demonstrating the targeted water savings.

- **Identify facilities for water savings** Begin August 2020
 - Estimated Contribution = \$ 2,500
 - Compile list of non-County owned public facilities including acreage and baseline outdoor water usage (e.g., crop or irrigation type)

 - Change landscaping to plant species which are native to the area
 - Install more efficient irrigation systems
 - Install smart meters to inform real-time water application needs
 - Convert grass to artificial turf
 - Design for onsite storm water capture
 - Incorporate recirculating water features
 - Updating, repairing or replacing indoor or outdoor water systems
 - Contact owners/operators of screened facilities to identify their interest in collaboration. Owners may include other public entities such as community service districts, water agencies, school districts, etc.,
 - Select facility(ies) to collaborate with for implementing the water savings

- **Develop Options for Water Savings for Selected Facilities** Begin Fall 2020
 - Estimated Contribution = \$ 5,000
 - Evaluate potential options for savings
 - Estimate total water use of options
 - Compute water savings from baseline usage
 - Select facilities

- **Prepare Landscape Documentation Package** Begin Spring 2021
 - Estimated Contribution = \$ 15,000
 - Project information
 - Water efficient landscape worksheet
 - Soil management report

EXHIBIT A

- Landscape design plan
- Irrigation design plan
- Grading design plan

- **Implement project** Spring 2021 to July 2022
 - Estimated Contribution = \$ 30,000
 - Including potential permitting and environmental documentation, stakeholder outreach, funding and financing strategies, agreements/contracts, etc.
 -

- **Certify completion of project** July 2022
 - Estimated Contribution = \$ 1,000

- **Reporting to County of El Dorado, County Counsel** On-Going
 - Estimated Contribution = \$ 1,500
 - At the completion of each stage, EDCWA will notify County Counsel of completion.
 - If a Landscape Documentation Package(s) is required, a copy of such Landscape Documentation Package(s) will be provided to the County prior to installation of the project(s)
