- F. Criminal activity by the Tenant on the residential real property, including any common areas, or any criminal threat, as defined in Penal Code § 422, subdivision (a), directed to any Owner or agent of the Owner of the premises.
- G. Assigning or subletting the premises in violation of the Tenant's lease.
- H. The Tenant's refusal to allow the Owner to enter the residential real property pursuant to a request consistent with Civil Code §§ 1101.5 and 1954, and Health and Safety Code §§ 13113.7 and 17926.1.

2. "No-fault" Reasons:

- A. Intent to occupy the residential real property by the Owner or their spouse, domestic partner, children, grandchildren, parents or grandparents (Owner/family move-in). Tenant and Owner hereby agree that the Owner shall have the right to terminate the lease if the Owner, or their spouse, domestic partner, children, grandchildren, parents or grandparents, unilaterally decide to occupy the residential property. Owner may terminate the lease at the end of a fixed term or any time during a month to month tenancy by giving the appropriate notice.

(2) In lieu of direct payment, Owner may waive the payment of rent for the final month of tenancy prior to the rent becoming due. The notice shall state the amount of rent waived and that no rent is due for the final month of tenancy.

*NOTE: Other exemptions under the Civil Code may apply. Additionally, this property may be subject to local rent cap and just cause eviction controls, which may impose additional restrictions. Housing Provider is strongly advised to seek counsel from a qualified California real estate attorney, who is familiar with the law where the property is located, prior to serving any notice.

The undersigned acknowledge a copy of this document and agree that the terms specified in Sections I, II(3), if checked, and V(3) are made a part of the lease or rental agreement specified above.

- Using criminal history information before otherwise affirming eligibility, and without a legally sufficient justification;
- G. Failing to assess financial standards based on the portion of the income responsible by a tenant who receives government subsidies (such as basing an otherwise neutral rent to income ratio on the whole rent rather than just the part of rent that is the tenant's responsibility);

- Real estate licensees should provide the same professional courtesy in responding to inquiries, sharing of information and offers of assistance to all clients and prospects.
- Housing providers should not make any statement or advertisement that directly or indirectly implies preference, limitation, or discrimination regarding any protected characteristic (such as "no children" or "English-speakers only").
- E. Housing providers should use a selection process relying on objective information about a prospective buyer's offer or tenant's application and not seek any information that may disclose any protected characteristics (such as using a summary document, e.g. C.A.R.  - An owner of a single-family residence who resides at the property with one lodger may be exempt from FEHA for rental purposes, PROVIDED no real estate licensee is involved in the rental;
 - An owner of a single-family residence may be exempt from FHA for sale or rental purposes, PROVIDED (i) no real estate licensee is involved in the sale or rental and (ii) no discriminatory advertising is used, and (iii) the owner owns no more than three single-family residences. Other restrictions apply;
 - D. An owner of residential property with one to four units who resides at the property, may be exempt from FHA for rental purposes, PROVIDED no real estate licensee is involved in the rental; and
 - Both FHA and FEHA do not apply to roommate situations. See, Fair Housing Council v Roommate.com LLC, 666 F.3d 1216 (2019).

Information on Dampness and Mold for Renters in California

Main points:

- · Living in damp or moldy buildings increases the chances of respiratory problems like asthma.
- The critical warning signs are visible mold, water damage, damp materials, or mold smell.
- Dampness is needed for mold to grow, so if you control the dampness, you control the mold.
- Dampness or mold indoors may make housing substandard, per the California Health & Safety Code.

This booklet describes the increased risks to health, including specific health issues, that may result from exposures to dampness or mold in buildings. This booklet was produced in January 2021 by the California Department of Public Health (CDPH) in accordance with the 2001 Toxic Mold Protection Act (HSC §26148).

Health Problems from Damp or Moldy Buildings

Living or working in damp or moldy buildings increases the risk of many harmful health problems, including:

- asthma attacks in people who already have asthma
- a new asthma diagnosis
- respiratory infections, such as bronchitis
- breathing symptoms, such as hay fever, sneezing, stuffy nose, sore throat, wheezing, breathing difficulty, or cough
- eczema or skin rash

Mold can affect people differently. How much a person is affected depends on how sensitive they are and on how much they are exposed. Damp or moldy buildings are linked to health problems in people even if they do not have allergies.

Signs of Dampness or Mold

Signs of dampness or mold that may cause health problems include:

- visible mold (regardless of color), such as on walls or ceilings, behind furniture or appliances, under carpets, or even hidden in areas not seen in the occupied areas of homes
- mold odor, noticed as an earthy, musty, or moldy smell
- visible water damage, such as water-stains or discoloration on walls or ceilings, peeling or bubbled paint, warped floors, or rotting wood
- damp or moist materials, including condensation on windows or walls

Any one of these signs indicates increased risks to health, and the more that any of them are present, the greater the risk of health problems. Tests that identify the types of mold or the amounts of mold in buildings are not useful in telling us about the health risks. This is why CDPH does not recommend testing for mold, such as measuring mold spores in the air.

Causes of Building Dampness that Can Allow Mold to Grow

The dampness that is necessary for indoor mold to grow can come from either inside or outside a building.

Indoor sources include:

- leaking or burst water pipes, for instance under sinks inside walls
- not enough venting to the outside by open windows or exhaust fans in places where water is used or moisture is produced (for example, bathrooms, laundry areas, kitchens, and water heaters)
- condensation (water droplets) on cold surfaces, including windows

Outdoor sources include:

- water coming in through leaky roofs or poorly-sealed windows, or from flooding
- damp, exposed dirt in crawl spaces
- outdoor surfaces that slope and drain water toward a building, including from a downspout

Fixing Dampness and Mold Problems

The California Health & Safety Code (HSC §17920.3) says that when dampness or visible mold (or certain other conditions) in a home is a hazard to the health of occupants, the home is substandard and the property owner must fix the conditions. The Code excludes mold that is "minor and found on surfaces that accumulate moisture as part of their properly functioning and intended use."

CDPH recommends fixing dampness and mold problems as follows:

- identifying and correcting the source of any water that may allow mold to grow
- · rapid drying or removal of damp materials
- · cleaning or removing mold and moldy materials as rapidly and safely as possible

Note: if a moldy area is simply bleached, cleaned, or painted over-without fixing the source of the dampness-the mold is likely to grow again.

Renters in California

The California Health & Safety Code requires property owners to provide a rental unit that is safe and healthy for the people living in it. Prospective renters should look for obvious conditions that show dampness or mold, and also less obvious signs like water leaks under the kitchen and bathroom sinks or moldy odor in a sealed-up home. Also look for conditions likely to cause future problems, like a bathroom that has no working vent fan or no window that opens, or a clothes dryer without an outside vent.

For renters who suspect there is dampness or mold:

- 1. Tell the property owner or manager. Early detection and correction of the dampness and mold problems can reduce the risks to your health and prevent the problem from getting worse.
- 2. If your property owner will not respond to your concerns in a reasonable amount of time, contact your local (city or county) code enforcement agency and ask for a code enforcement officer to inspect for violations. Many dampness or mold problems in rental homes are the responsibility of the property owner and must be addressed by them. However, a code enforcement officer may determine that dampness or mold in a building results from a tenant's actions or inactions for instance, not using available bathroom ventilation during showers.
- 3. If the local inspector determines there is a violation, they can require the property owner to correct the problem.

Additional Resources

For general information on dampness and mold and a list of local code enforcement agencies, with a focus on dampness and mold, see www.cdph.ca.gov/iaq/mold. To see an animated video series, Mold in the Home, visit www.cdph.ca.gov/mold.

Property owners must provide a rental unit that is safe and healthy for the people living in it.

Tenants must notify property owners of any dampness or mold problems.
