My family would welcome this business at that site with open arms. This is just what we need in CP.

Just wanted to show my support for the upcoming discussion regarding commercial development of Barsoti warehouse and Grocery Outlet. EDC is one of the most expensive and exclusive counties in the area and while I appreciate the application in my RE, I also very much dislike limiting the opportunities of others including my children to live where they were raised. Much of this quandary lies in high cost of market entry for development, which leads to more homes and more jobs to support those homes. Please continue to support smart growth.

Michael

Hi-

I have noticed that the population out my way (Cameron park/Rescue) includes many folks who appear not to have vehicles. We are in need of a grocery store to supply these folks with basics like healthy produce, meats, and dairy. I think building a grocery store will help the under-resourced and I greatly support the idea. Please consider that most people who oppose the idea have access to vehicles and grocery stores that are farther away. There are lots of people who walk from their apartments to shop at CVS and Riteaid. Please provide an alternative for their grocery shopping needs that will allow them access to healthy options.

Thank you!

A very privileged citizen-

Marie Bensley

Please support the Grocery Outlet for our 95682 community and all surrounding.  
I'd love to stay in the area to shop there vs going to Folsom or Placerville as I ( and several of my neighbors ) currently do  
Thank you  
Renee Vetter
