

Petition Opposing Commercial Cannabis Cultivation License on Perry Creek Road and Surrounding Areas

To the El Dorado Planning and Building Department and El Dorado County Board of Supervisors:

We, the undersigned residents of Somerset and Surrounding Areas, are writing to express our strong opposition to the proposed commercial cannabis cultivation licenses in the Somerset community. We believe these developments present significant threats to the safety, character, and well-being of our community and urge you to deny the permit applications.

Concerns regarding social impact:

- **Public Park and School Bus Stops:** We are deeply concerned that at least one of the proposed cannabis cultivation farms is near a public park. Children and adults use the park's playground, disc golf course, horse arena, and athletic facilities daily. School bus stops, where children the ages of Kindergarten through high school wait for their bus throughout the school year, are near some of the proposed cannabis farms.
- **Increased crime and safety risks:** We are deeply concerned that the presence of a large-scale cannabis farm will attract unauthorized visitors, leading to increased theft, trespass, and potential drug trafficking activity. This poses a direct threat to the peaceful and secure environment we have enjoyed in Somerset and the surrounding areas.
- **Disruption of community character:** Our community values its tranquility, strong family values, and traditional way of life. We fear that these developments will alter this character, drawing unwanted attention and potentially attracting individuals outside our close-knit community.
- **Nuisance issues:** The farms' operations could result in a variety of nuisances, including noise from processing equipment, light pollution that disrupts the night sky, unpleasant odors, and increased traffic flow on our rural roads. These factors would significantly impact the quality of life for residents.

Concerns regarding economic impact:

- **Potential decrease in property values:** We are concerned that the presence of commercial cannabis cultivation farms could have a negative impact on property values in our community. This would be detrimental to residents, especially those invested in agriculture or tourism.
- **Excessive water usage:** Our region faces water scarcity challenges. The farms' high water demand could deplete vital resources, affecting both our community's access and the natural environment.

- **Unfair competition for resources:** We believe the farms could unfairly compete for limited resources, such as skilled labor or infrastructure, that are currently essential for existing businesses and residents.

Concerns regarding environmental impact:

- **Pesticide and herbicide use:** The potential use of pesticides and herbicides on the farms pose a significant risk to our local ecosystem, potentially harming wildlife and contaminating water sources.
- **Light pollution:** Excessive artificial lighting at the farms would disrupt nocturnal animals and impact the night sky, a cherished aspect of our rural environment.
- **Waste disposal concerns:** We are concerned about the proper disposal of waste generated by the farms, including plant trimmings and chemical containers. Improper disposal could lead to environmental contamination and health risks.

Additional concerns:

- **The difference in obtaining a Beer/ Wine or Liquor License:** Our community at-large is currently unaware of entities seeking permits to have industrial size cannabis grows in their neighborhoods. Unlike Liquor Licenses applicants who are mandated to publicly post their intentions well in advance, these Cannabis applications are being processed without the same requirements, denying directly affected people the same access to information.
- **Lack of trust in regulations:** We have concerns about the effectiveness of regulations governing cannabis farms. We fear inadequate enforcement or loopholes could lead to negative consequences for our community.
- **Moral objections:** Many residents hold personal or religious objections to cannabis use, regardless of its legal status. We believe they have the right to live in a community that aligns with their values.

Therefore, we implore you to consider the concerns outlined above and deny the permit application for the proposed commercial cannabis farms. We believe these developments are incompatible with the values and needs of our community and pose a significant threat to our way of life. We urge you to prioritize the safety, character, and well-being of Somerset and surrounding areas and reject this proposal.

Sincerely,

The undersigned residents of Somerset and Surrounding Areas

Notice: There are 12 approved (not just 2). Harde's project is "Processing".
