BOS
El Dorado County, CA.

Dear Supervisors,

Predators have moved into our County! You can see them along our local highways and they refuse to go away!!
Some of these predators are nailed to trees or utility poles while others cling to little wire stands which are pushed into the dirt. These predators give our community a cheap look and they are a distraction to our drivers and eventually add to our solid waste disposal problem.
In some instances precious tax payer funds are used to dispose of these predators!

So who are these predators?

Illegal signs which are nailed to trees or utility poles by GOLDEN STATE FORESTRY COMPANY of El Dorado Hills. They proudly list their Toll Free Number 888 336 1389 or their web site: WWW.GOLDENSTATEFORESRTY.COM. One of these signs can be seen at the 190 marker on Mosquito Road in Placerville.

Another famous predator which has returned for the 2018 summer season is the: Whole House Fan Company. They are located at 8220 Belvedere Avenue # C in Sacramento. CA. 95826. Their telephone number is 916 537 2285. (LIC 785869) A sample of their sign which was nailed to a utility pole can be viewed on Mosquito Road before Wild Life Way.
This company's signs are also mounted on metal stands and placed along the roadways. Frequently these metal stands are knocked over and the sign end up in the roadway.

By allowing these predators to flourish in our community, the BOS are hurting our local small businesses who are the backbone of our community. Small businesses advertise in the local media, employ our neighbors and contribute to our community organizations.

I hope that the BOS will take a firm stand against the predators who come to live in our community so that we can keep El Dorado a tranquil place to live.

I look forward to your favorable, prompt reply.

Sincerely,

James Hebenstreit
